Archaeology in the Holy Land Kathleen Mary Kenyon,1985 *Archaeology in the Holy Land* Kathleen M. Kenyon,1960
The emphasis in this book is on the first word in its title archaeology It does not claim to be a complete history for in the historical period literary evidence can give a much more detailed political religious and economic picture than has here been attempted But nevertheless a story of Palestine is the framework of the book with the emphasis upon the contribution that archaeology can make Down to c 3000 B C archaeology alone can write the story As the story is gradually merged into history archaeology still plays a very large part Only in the first millennium B C can history provide a reasonably consecutive story and even then it would remain a one sided unbalanced story without the help of archaeology This book therefore aims at showing the evidence that writes the story for the prehistoric period and in the historic periods concentrates on the evidence which supplements the written record using this only as a background for the archaeological material An excellent book has already been written by Professor Albright on the archaeology of Palestine But this appeared in 1949 and gave the picture provided by pre war archaeology for active field archaeology was virtually at a standstill between 1936 and 1952 Since then much has happened for Palestinian archaeology in both Jordan and Israel is an extremely live affair as all branches of archaeology should be The great modifications and amplifications for which fresh discoveries have provided the evidence is the justification for a new book **Routledge Library Editions: Victorian Theatre** Various,2021-03-04
Reissuing works originally published between 1971 and 1981 this compact set offers an outstanding collection of scholarship devoted to 19th Century Victorian theatre A small set of performance history and criticism this set includes a biography of Henry Irving a look at the rise of the status of a career as actor and a consideration of the advent of dramatic criticism These volumes present together a lively picture of the development of the contemporary theatre **Routledge Library Editions: Education and Religion** Various,2021-07-14 The 10 volumes in this set originally published between 1965 and 1994 draw together research by leading academics in the area of religious education and provides a rigorous examination of related key issues The volumes examine the teaching of world faiths in schools religious education in both primary and secondary schools and the teaching of morality This set will be of particular interest to students of Education and Religious Studies

Routledge Handbook on Middle East Cities Haim Yacobi,Mansour Nasasra,2019-07-01 Presenting the current debate about cities in the Middle East from Sana a Beirut and Jerusalem to Cairo Marrakesh and Gaza the book explores urban planning and policy migration gender and identity as well as politics and economics of urban settings in the region This handbook moves beyond essentialist and reductive analyses of identity urban politics planning and development in cities in the Middle East and instead offers critical engagement with both historical and contemporary urban processes in the region Approaching Cities as multi dimensional sites products of political processes knowledge production and exchange and local and global visions as well as spatial artefacts Importantly in the different case studies and theoretical approaches there is no

attempt to idealise urban politics planning and everyday life in the Middle East which as with many other cities elsewhere are also situations of contestation and violence but rather to highlight how cities in the region and especially those which are understudied revolve around issues of housing infrastructure participation and identity amongst other concerns Analysing a variety of cities in the Middle East the book is a significant contribution to Middle East Studies It is an essential resource for students and academics interested in Geography Regional and Urban Studies of the Middle East *Palestine Across Millennia* Nur Masalha,2022-02-24 In this magisterial cultural history of the Palestinians Nur Masalha illuminates the entire history of Palestinian learning with specific reference to writing education literary production and the intellectual revolutions in the country The book introduces this long cultural heritage to demonstrate that Palestine was not just a holy land for the four monotheistic religions Islam Christianity Judaism and Samaritanism rather the country evolved to become a major international site of classical education and knowledge production in multiple languages including Sumerian Proto Canaanite Greek Syriac Arabic Hebrew and Latin The cultural saturation of the country is found then not solely in landmark mosques churches and synagogues but in scholarship historic schools colleges famous international libraries and archival centres This unique book unites these renowned institutions movements and multiple historical periods for the first time presenting them as part of a cumulative and incremental intellectual advancement rather than disconnected periods of educational excellence In doing so this multifaceted intellectual history transforms the orientations of scholarly research on Palestine and propels current historical knowledge on education and literacy in Palestine to new heights *The Boundaries of Jewishness in the Southern Levant 200 BCE-132 CE* John Van Maaren,2022-06-06 Recent research has considered how changing imperial contexts influence conceptions of Jewishness among ruling elites esp Eckhardt *Ethnos und Herrschaft* 2013 This study integrates other often marginal conceptions with elite perspectives It uses the ethnic boundary making model an empirically based sociological model to link macro level characteristics of the social field with individual agency in ethnic construction It uses a wide range of written sources as evidence for constructions of Jewishness and relates these to a local specific understanding of demographic and institutional characteristics informed by material culture The result is a diachronic study of how institutional changes under Seleucid Hasmonian and Early Roman rule influenced the ways that members of the ruling elite retainer class and marginalized groups presented their preferred visions of Jewishness These sometimes competing visions advance different strategies to maintain rework or blur the boundaries between Jews and others The study provides the next step toward a thick description of Jewishness in antiquity by introducing needed systematization for relating written sources from different social strata with their contexts **Testing the Canon of Ancient Near Eastern Art and Archaeology** Amy Gansell,Ann Shafer,2020-01-06 Testing the Canon of Ancient Near Eastern Art and Archaeology invites readers to reconsider the contents and agendas of the art historical and world culture canons by looking at one of their most historically enduring components the art and archaeology of the ancient Near East Ann Shafer Amy Rebecca

Gansell and other top researchers in the field examine and critique the formation and historical transformation of the ancient Near Eastern canon of art architecture and material culture Contributors flesh out the current boundaries of regional and typological sub canons analyze the technologies of canon production such as museum practices and classroom pedagogies and voice first hand heritage perspectives Each chapter thereby critically engages with the historiography behind our approach to the Near East and proposes alternative constructs Collectively the essays confront and critique the ancient Near Eastern canon s present configuration and re imagine its future role in the canon of world art as a whole This expansive collection of essays covers the Near East s many regions eras and types of visual and archaeological materials offering specific and actionable proposals for its study *Testing the Canon of Ancient Near Eastern Art and Archaeology* stands as a vital benchmark and offers a collective path forward for the study and appreciation of Near Eastern cultural heritage This book acts as a model for similar inquiries across global art historical and archaeological fields and disciplines Pondering the Spade David B. Schreiner, 2019-04-17 The close relationship between the Old Testament and archaeology goes without saying However the methodological nuances involved are often either underappreciated or ignored Using William Dever s idea of convergence this work attempts to flesh out details on how archaeology and Old Testament studies merge It examines some of the most important archaeological finds to date and determines that whether through a broad or narrow convergence the history of research has shown that these two separate disciplines exhibit a tendency to inform one another In the case of Old Testament studies these convergences may even be paradigm shifting In every case the convergences are historically and culturally informative and therefore illuminate the depth of the biblical text **Cultural Heritage** Hani Hayajneh , 2023 Human heritage is an endless mine of knowledge skills ethos and accomplishments which visualize and examine the power of human creativity and innovation throughout the history The contributions cast an insight into the human psyche to perceive its Weltanschauung and its way of thinking and making artefacts associated with knowledge existence and identity in the context of other existing systems in the world They demonstrate the diversity of topics as well as the state of the art of interdisciplinary approaches that participants of the Humboldt Kolleg use in their research on cultural heritage and confirm once again that the strengths of the Alexander von Humboldt Network should be celebrated and honoured The present volume invites us to seek more novel research approaches that aim towards an understanding of the complex nature of human inheritance **Unearthing the Wilderness: Studies on the History and Archaeology of the Negev and Edom in the Iron Age** Juan Manuel Tebes, 2014 This volume comprises all but one of the papers presented at the workshop Unearthing the Wilderness Workshop on the History and Archaeology of the Negev and Edom in the Iron Age held at the W F Albright Institute of Archaeological Research Jerusalem on 12 December 2010 It is supplemented with studies from scholars who were unable to attend the conference but were eager to contribute to this book Preface

The Architecture of the Christian Holy Land Kathryn Blair Moore,2017-02-27 In the absence of the bodies of Christ and Mary architecture took on a special representational role during the Christian Middle Ages marking out sites

associated with the bodily presence of the dominant figures of the religion Throughout this period buildings were reinterpreted in relation to the mediating role of textual and pictorial representations that shaped the pilgrimage experience across expansive geographies In this study Kathryn Blair Moore challenges fundamental ideas within architectural history regarding the origins and significance of European recreations of buildings in Jerusalem Bethlehem and Nazareth From these conceptual foundations she traces and re interprets the significance of the architecture of the Holy Land within changing religious and political contexts from the First Crusade and the emergence of the Franciscan Custody of the Holy Land to the anti Islamic crusade movements of the Renaissance as well as the Reformation *Kegan Paul, a Victorian Imprint* Leslie Howsam,1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **I'm Talking about Jerusalem** Tim Dowley,2023-11-28 On the famous mappa mundi housed in Hereford Cathedral Jerusalem is at the center of the world For Jews Christians and Muslims this holy city represents not merely a physical focus for their faith but a theological and spiritual emblem simultaneously a very earthly city and a uniquely celestial kingdom How has this insignificant city become such a critical location in geopolitics and psychogeography I m Talking about Jerusalem explores the many and varied meanings and resonances of Jerusalem in history prophecy theology literature imagery and myth Jerusalem appears 806 times in the Bible For the Jews Jerusalem is not simply a significant physical place past and present but a religious concept transcending time For Christians it is the site of Jesus s last days and of countless Christian structures relics and remains Islamic tradition has celebrated the city with seventeen names it was a key stage in Muhammad s night journey and became Islam s third holiest place of pilgrimage For all three Abrahamic religions Jerusalem is a major pilgrimage destination Aldous Huxley wrote We have each of us our Jerusalem a vision of what life might be I m Talking about Jerusalem considers Jerusalem as a political goal and eternal home its place in Jewish Christian and Islamic eschatology and as a metaphor for all we yearn for in this world and the next A place of perfection and conclusion a golden city a paradise to be attained after death
