Marquis, 2017-03-21 PRICM 8 features the most prominent and largest scale interactions in advanced materials and processing in the Pacific Rim region The conference is unique in its intrinsic nature and architecture which crosses many traditional discipline and cultural boundaries This is a comprehensive collection of papers from the 15 symposia presented at this event **From Perception to Communication** Robin Cooper, 2023-03-23 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations This book characterizes a notion of type that covers both linguistic and non linguistic action and lays the foundations for a theory of action based on a Theory of Types with Records TTR Robin Cooper argues that a theory of language based on action allows the adoption of a perspective on linguistic content that is centred on interaction in dialogue this approach is crucially different to the traditional view of natural languages as essentially similar to formal languages such as logics developed by philosophers or mathematicians At the same time he claims that the substantial

technical advantages made by the formal language view of semantics can be incorporated into the action based view and that this can lead to important improvements in both intuitive understanding and empirical coverage This enterprise uses types rather than possible worlds as commonly employed in studies of the semantics of natural language Types are more tractable than possible worlds and offer greater potential for understanding the implementation of semantics both on machines and in biological brains
