Sorg-Elliott,Jerold E. Elliott,1999 This book has

been written for the recreation professional and anyone else who works with older adults in the field of recreation. It provides low cost client intensive recreation programming ideas for older adults regardless of the level at which they are able to function. Anyone working with people with disabilities may utilize these ideas but they have been designed and tested for use with older adults. A majority of the activities in this book are designed for use with clients who must have individual attention from a staff member in order to participate. The activities are designed for older adults who may or may not be physically frail but who exhibit many signs of confusion, memory loss and or disorientation. The authors philosophy evident throughout the book is that any recreational activity can and should benefit the client and even those programs that are designed simply to provide a fun filled afternoon or evening should have a goal and carry equal weight in the overall programming schedule.

Academic Vocabulary Practice, Grade 5, 2014-05-15 The Academic Vocabulary Practice for fifth grade offers teachers 128 pages of practical ways to help students master essential academic vocabulary. It is aligned with Common Core State Standards and includes word lists of more than 200 domain specific words, reproducible practice pages, game templates, a student dictionary and an answer key. Additionally, a full set of vocabulary flash cards is available online. The Academic Vocabulary Practice series for kindergarten through grade 5 supports literacy in the content areas of language arts, math, science, social studies, art and technology. Each book offers systematic practice and usage of many of the academic and domain specific words and phrases that students need to know to successfully complete work at grade level. There is also a Games and Suggestion section and game templates for small or whole group activities. The Student Dictionary pages are organized by content area and support the activity pages in each section.
