Task Force on Higher Education and the Schools, 1983 *Improving Research-Based Knowledge of College Promise Programs* Laura W. Perna, Edward J. Smith, 2020-03-20 Also known as free tuition and free college programs college promise programs are an emerging approach for increasing higher education attainment of people in particular places To maximize the effectiveness of their efforts and investments program leaders and policymakers need research based evidence to inform program design implementation and evaluation With the goal of addressing this knowledge need this volume presents a collection of research studies that examine several categories and variations of college promise programs These theoretically grounded empirical investigations use varied data sources and analytic techniques to examine the effects of college promise programs that have different design features and operate in different places Individually and collectively the results of these studies have implications for the design and implementation of promise programs if these programs are to create meaningful improvements in attainment for people from underserved groups The authors efforts also provide a useful foundation for the next generation of college promise research Hearings Before the Subcommittee on Public Buildings and Grounds of the Committee on Public Works, House of Representatives ... Committee on Governmental Affairs, 1980 *A Compilation of State Sunset Statutes with Background Information on State Sunset Laws* , 1982 From Cotton Belt to Sunbelt Bruce J. Schulman, 1991 This is a carefully executed study of the effects of federal economic policy in transforming the American South from the time of the New Deal to the present Decrying the South s economic backwardness and political conservatism the Roosevelt Administration launched a series of aggressive programs to reorder the Southern economy A generation of young liberal Southerners entered the national government to preside over these policies After 1950 however Keynesianism replaced New Deal reform as the mainstay of national economic policy and the national security state supplanted the social welfare state as the South s principal benefactor Schulman here contrasts the diminished role of national welfare programs in the postwar

South with the expansion of military and growth oriented programs analyzing their contributions to the South's remarkable economic growth and the excruciating limits of that prosperity Schulman ultimately relates these developments to Southern politics and race relations A forcefully argued work From Cotton Belt to Sun Belt will be an invaluable addition to the literature and an essential guide to students and scholars of federal policy and modern Southern history Raising Standards Patricia A. Flanagan,1999-03 Examines state higher education policies that influence student preparation for college Three policy areas are the focus of this state by state analysis raising admissions requirements for public four year colleges providing regular feedback on student preparation to high schools and establishing statewide merit aid programs

The Southern Appalachian Region Thomas R. Ford,2021-11-21 The Southern Appalachian Region is the largest American problem area an area whose participation in the economic growth of the nation has not been sufficient to relieve the chronic poverty of its people The existence of the problem was recognized a generation ago but in the past decade the resistance of such areas to economic advance has acquired a more urgent significance in American thought In 1958 a group of scholars undertook to make a new survey of the Southern Appalachian Region Aided by grants from the Ford Foundation ultimately amounting to 250 000 they set out to analyze the direction and extent of the changes which had taken place since the last survey in1935 to define the problem in terms of the present situation and if possible to arrive at recommendations for action which might enable the leaders of the Region and the nation to attack the problem with practical measures In this volume are presented their comprehensive reports on the Region's population its economy its institutions and its culture The problems defined by this survey are a challenge to the whole nation for the consequences of success or failure in solving them will not be limited to the Southern Appalachian Region *Monthly Catalog of United States Government Publications* ,1988 *State Boards Responsible for Higher Education, 1970* J.
