Past, Present, Parallel Arthur Trew,Greg Wilson,2012-12-06 Past Present Parallel is a survey of the current state of the parallel processing industry In the early 1980s parallel computers were generally regarded as academic curiosities whose natural environment was the research laboratory Today parallelism is being used by every major computer manufacturer although in very different ways to produce increasingly powerful and cost effective machines The first chapter introduces the basic concepts of parallel computing the subsequent chapters cover

different forms of parallelism including descriptions of vector supercomputers SIMD computers shared memory multiprocessors hypercubes and transputer based machines Each section concentrates on a different manufacturer detailing its history and company profile the machines it currently produces the software environments it supports the market segment it is targetting and its future plans Supplementary chapters describe some of the companies which have been unsuccessful and discuss a number of the common software systems which have been developed to make parallel computers more usable The appendices describe the technologies which underpin parallelism Past Present Parallel is an invaluable reference work providing up to date material for commercial computer users and manufacturers and for researchers and postgraduate students with an interest in parallel computing *InfoWorld* ,2004-04-26 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Computerworld** ,2004-04-26 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Computer & Communications Decisions** ,1987 Computer Decisions ,1987 **Computerworld** ,2005-01-24 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Computerworld* ,2007-05-28 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **InfoWorld** ,1990
