The Language of Color in China Jun Zhou, Gail Taylor, 2019-01-17 This is the first book to explore color history in Asia. Color is a natural phenomenon and a fundamental element of the universe and offers a medium to communicate with others globally. It is a language of signals such as traffic lights, signs, or symbols and an essential part of society. Color attracts people's attention and transmits important information. As such, color language denotes all of the activities of human history and has been associated with changes in society, economic development, and dynasties replacing the old with the new. The book brings together many elements of Chinese history with reference to the topic of color and has evolved from the authors' respective interests in art and design, teaching and research consultancy, and publishing. The topic will be of increasing importance in the future as a consequence of China's increasing influence in the sphere of global culture. For practitioners of art and design, the book will be a valuable resource for the general public interested in the development of Chinese aesthetics over the centuries; it will provide a new perspective complementary to existing studies about art, design, and the history of the region.

The Story of the World Susan Wise Bauer, 2004-05-31 Presents a history of the ancient world from 6000 B.C. to 400 A.D.

Becoming China Jeanne-Marie Gescher, 2017-11-09 An account of China's past and present: how a small group of people at the edges of the Yellow River evolved to become the state of China today. Despite decades of a relatively open-door relationship with the rest of the world, China is still a mystery to many outside it. How does China work? What does it want? Why does it want it? And what does its rise to global power mean for the rest of the world? As the twenty-first century looks set to be the stage for a battle about competing geopolitical ideals, these are urgent questions for everyone with an interest in what the future might bring. A world of its own, China is both a microcosm and an amplification of questions and events in the wider world. China's story offers us an opportunity to hold a mirror to ourselves, to our own assumptions, to our values, and to our ideas about the most important question of all: what it means to be human in the world. Epic in scope, this is the story of how China became the state it is today and how its worldview is based on what has gone before. Weaving together inspirations, ideas, wars, and dreams, Jeanne Marie Gescher reveals the heart of what it means to be Chinese and how the past impacts the present.

Tomb Explorers Nicola Barber, 2013 Looks at five ancient tombs with treasure troves, presenting information about their discoverers, how the discoveries were made, and what was found at each of them.
