Terranova Parent Letter:

Terra Nova: The Search Nathan Charlton, 2009-03-29 In a small central California town a seismologist working for the United States Geological Survey has made a terrifying discovery A recent seismic phenomenon is predicting global volcanic activity that threatens to wipe mankind from the face of the earth Fearing widespread panic and civil disobedience it is decided to keep the truth a secret from the public In order to save the human race the President pushes forward with a dramatic initiative to overhaul NASA and begin a new mission to colonize deep space The newly formed deep space team must harness the technology of researcher and single dad Tom Scolari but with their eyes focused on the stars the odds are against them at home News of the earth s demise is on the verge of becoming public and increasingly violent eruptions continue to mount around the globe The survival of the human race rests upon the shoulders of a few and time is running out
