Weinstein Robert

L. Oprisko, Diane Rubenstein, 2014-12-05 This book is a major reassessment of Michael Weinstein's political philosophy It situates his singular contribution designated as critical vitalism in the context of both canonical American and contemporary continental theory. Weinstein is presented as a philosopher of life and as an American Nietzsche Yet the contributors also persuasively argue for this form of thinking as a prescient prophecy addressing contemporary society s concern over the management of life as well as the technological changes that both threaten and sustain intimacy. This is the first full scale study of Weinstein's work which reveals surprising aspects of a philosophic journey that has encompassed most of the major American pragmatic or vitalist or Continental phenomenological or existential traditions. Weinstein is read as a comparative political theorist a precursor to post structuralism and as a post colonial border theorist. A different aspect of his oeuvre is highlighted in each of the book's three sections. The opening essays comprising the Action diptych contrasts meditative versus extrapolative approaches. Contemplation stages a series of encounters between Weinstein and his philosophic interlocutors. Vitalism presents Weinstein as a teacher media analyst musician and performance artist. The book contains an epilogue written by Weinstein in response to the contributors.
