What Is Wrong With Our Schools? The ideology impoverishing education in America and how we can do better for our students Daniel Buck, 2022-12-09. What is wrong with our schools is the question everyone seems to be asking or more like screaming nowadays. Standard answers point to everything from school funding to unions to bureaucracies and more. In this book, Daniel Buck provides a different answer. Flawed ideas about instruction, curriculum, even human nature itself are the root cause of American schooling's dysfunction. Touching on philosophy, contemporary educational studies, cognitive science, and his own experience in the classroom, Buck argues that so long as we build our system on incorrect first principles, all other reforms are for naught. In place of the progressive education that pervades our schools, Buck argues for a traditionalist approach: classic literature, direct instruction, sequenced curricula, clear rules and consequences as the education we need for the future.

Powerful Readers Kyla

Hadden, Adrienne Gear, 2016-10-14. At any age or grade level, powerful readers are those who are aware of their thinking as they read. The assumption is that high school students don't need to be taught how to read, but even if they can decode words and gain literal understanding, they often don't think deeply about what they are reading. Presenting a balance of theory and practical lessons, *Powerful Readers* demonstrates that instruction in the key strategies of connecting, visualizing, questioning, inferring, determining importance, and transforming can help students develop their reading skills and get more out of their work with fiction and nonfiction. Step-by-step lessons for introducing and using the strategies, connections to literary devices, and reading lists for each strategy are all part of this valuable resource.
