spring is a branch of Wing Chun led by Leung Ting The particular phonetic spelling of as Wing Tsun was picked by the branch founder Leung Ting to differentiate his branch from the others WingTsun without a space is the trademarked form used by the International WingTsun Association IWTA not the name of the style The main objective of Wing Tsun or WT as it is commonly abbreviated is to be a realistic system of self defense WT does not focus on fighting techniques instead relying on fighting and energy principles to be followed at all times The central idea is that under pressure it is impossible to visually recognize the precise direction and speed of an attack and make a conscious decision on an effective way in which to react all within the very brief amount of time you have before your opponent s attack lands Rather one must counter attack immediately in a very direct and protected manner and rely on reflexes to determine how to react if the opponent s attack continues to pose a problem Chi sao or sticking hands trains students to respond reflexively to the speed force and direction of an attack based on tactile information which the human brain processes much faster than visual information The main difference between Wing Tsun and other Wing Chun styles is the WT teaching method The style s creator Leung Ting developed the system to be easier to learn and teach compared to more traditional styles of Wing Chun This idea was later expanded upon by Keith Kernspecht head of A Barefoot Doctor's Manual Hunan Zhong yi yao yan jiu suo.
