**Asia's Quest for Balance** Jay L. Batongbacal, Elliot Brennan, Tetsuo Kotani, Evan A. Laksmana, Joseph Chinyong Liow, Hunter Marston, Rory Medcalf, Sylvia Mishra, C. Raja Mohan, Prashanth Parameswaran, Tran Truong Thuy, Ha Anh Tuan, 2018-10-15 In recent years the narrative surrounding China's peaceful rise has given way to a more ominous story of friction, ambition and great power rivalry. As Chinese foreign policy has grown more nationalist and assertive, its intensifying competition with the U.S. has assumed center stage. The impact on China's neighbors, by contrast, and their evolving responses have received comparatively less attention. The Realist theory of international relations suggests the rapid accumulation of power by one nation state will prompt its neighbors and peers to adopt Balancing strategies. They will strive to enhance their internal defense capabilities and forge new external security partnerships to hedge against this potential new threat. Have these predictions rung true? Are key Indo-Pacific capitals balancing and drawing closer to the U.S. as insurance against Chinese aggression? Or is China a new breed of rising power challenging traditional theories of international relations in a newly globalized, economically interdependent world? In *Asia's Quest for Balance*, China's Rise and Balancing in the Indo-Pacific, leading author experts from Australia, India, Indonesia, Japan, Malaysia, Myanmar, the Philippines, Singapore and Vietnam explore these questions and more, decoding China's complex and evolving relationships with its neighbors and exploring how their responses are altering the security landscape of the region. Contributions by Jay L. Batongbacal, Elliot Brennan, Tetsuo Kotani, Evan A. Laksmana, Joseph Chinyong Liow, Hunter Marston, Rory Medcalf, Sylvia Mishra, C. Raja Mohan, Prashanth Parameswaran, Jeff M. Smith, Tran Truong Thuy and Ha Anh Tuan.

**China and Her Neighbours** Michael Tai, 2019-09-15 For centuries China was confident in its role as the Middle Kingdom, the undisputed cultural, economic and political powerhouse of Asia. Today, with China once again a leading player on the world stage, countries across the continent are facing an uncertain future. Does China's rise threaten its neighbours? And what ultimately is its end goal? Nowhere are these questions more pressing than in the Pacific, where China's maritime neighbours find themselves directly in the path of the country's expanding territorial claims. In this rich historical exploration, Michael Tai finds answers to these and other questions through an in-depth exploration of China's past. Spanning thousands of years of Chinese and Asian history, *China and Her Neighbours* looks at China's evolving relations with Japan, Vietnam, the Philippines and Malaysia. While the disputes in the Pacific have attracted widespread attention, very few investigations have considered the wider historical context of these tensions.

**Strengthening Electoral Integrity** Pippa Norris, 2017-08-29 Norris counters current pessimism about the effectiveness of democratic programs monitoring and assisting elections worldwide, arguing for international engagement.

Kyle, Jordan, 2017-01-13 This review evaluates the role of the state in development offering a new framework for understanding what capabilities states need to overcome different types of market failures This framework is employed to understand the successes and failures of state led development in Malaysia The review addresses three key questions First what do we know about developmental states and why they emerged Second what have developmental states achieved In answering this question I look not only at growth but also at structural transformation economic upgrading equity and human capability enhancement In contrast to the idea of a single East Asian model of development I find five distinct development trajectories Third how did developmental states utilize state structures to pursue development To answer this final question I examine in depth the history of state led development in Malaysia including agricultural industrial and social policies This case study sheds light on what specific institutional and political capacities helped Malaysia to improve productivity in agriculture expand the manufacturing sector and reduce inequality It also explores why Malaysia has been less successful in developing linkages with the export based manufacturing sector
