English Language Arts the Kindergarten Way Molly Cochell, Laura Fullmer, 2017-05-02 Kindergarten teachers know that a child's first taste of school should be engaging, active, social, and fun. Yet teachers are presented with a challenge: How do they nurture the holistic, exploratory nature of early childhood while teaching with the intentionality and rigor required to meet learning goals? Let this resource pave the way. *English Language Arts the Kindergarten Way* contains methods for teaching foundational reading skills, building vocabulary, inspiring and developing writing, and helping children respond to literature and informational text while inherently fulfilling the needs of the whole child. An entire year of activities is included. And all activities are classroom tested and naturally infuse visual art, music, drama, poetry, movement, and puppetry so that kindergartners meet learning goals their way. *Software and CD-ROM Reviews on File*, 2002

Scrapbook Journaling Made Simple Memory Makers, 2002-09-15 Annotation: The stories behind readers' photos are as important as the images themselves. This book shows them how journaling can enrich their scrapbook layouts. It's a comprehensive guide designed to instill confidence in the most reluctant writer and combine two pastimes that are equally personal and long-lasting: writing and scrapbooking. Beautiful color photos instruct and inspire readers to create scrapbook pages that will speak to generations to come.

Understanding Early Years Education across the UK Diane Boyd, Nicky Hirst, 2015-09-07 The four nations of the UK each have distinctive policy and curricula in relation to Early Childhood Education and Care (ECEC). This new textbook offers a comprehensive look at early years education in England, Northern Ireland, Scotland, and Wales, bringing the curriculum frameworks for each country together in one place. Drawing on the cultural and practical pedagogy of each curriculum, this book aims to develop students' understanding of the development, care, education, health, well-being, and upbringing of young children across the UK in a social, pedagogical, and policy context. Divided into two sections, the first examines each country's learning and teaching requirements in detail within a policy context. The book then explores the similarities and differences between the curricula, focusing on key areas such as play, the indoor and outdoor learning environment, the family, and assessment. Accessible and engaging, this book will help students to analyse and question practice both in their own country and across all four Home Nations. Features include case studies to illustrate practice and a frequently asked questions section in each chapter to clarify key points and opportunities for reflection and debate. Including contributions from expert practitioners in each country, this text is essential reading for all students studying early childhood and will help them to understand the impact of policy on children and families across the UK.
