Nature's Music Peter R. Marler, Hans Slabbekoorn, 2004-10-05 The voices of birds have always been a source of fascination Nature's Music brings together some of the world's experts on birdsong to review the advances that have taken place in our understanding of how and why birds sing what their songs and calls mean and how they have evolved All contributors have strived to speak not only to fellow experts but also to the general reader The result is a book of readable science richly illustrated with recordings and pictures of the sounds of birds Bird song is much more than just one behaviour of a single particular group of organisms It is a model for the study of a wide variety of animal behaviour systems ecological evolutionary and neurobiological Bird song sits at the intersection of breeding social and cognitive behaviour and ecology As such interest in this book will extend far beyond the purely ornithological to behavioural ecologists psychologists and neurobiologists of all kinds The scoop on local dialects in birdsong How birdsongs are used for fighting and flirting The writers are all international authorities on their subject

Art and Creativity in a New Guinea Society Ross Bowden, 2022-07-26 The Kwoma the subject of this book are one of a number of peoples in the Sepik River region of northern Papua New Guinea who have created some of the most distinctive visual art in the Pacific Through case studies of their painting sculpture architecture and ritual this book examines in detail how people in this society understand their art as a cultural phenomenon This includes how they understand its origins in the spirit world how they judge quality in art and how they understand artistic creativity The book contrasts Kwoma beliefs with the radically different approach to art found in the modern West The modern Western concept of art first emerged not in the eighteenth century in the Enlightenment or even later as anthropologists and art historians often assume but several centuries earlier in the Renaissance The book gives an account of radical changes that took place culturally in Europe between the twelfth and sixteenth centuries in the way human intellectual creativity was understood and how this gave rise to a new concept of art one that remains unchanged in the modern West today
