Weak Island Semantics Márta Abrusán, 2014-02-20 This book presents a novel semantic account of weak or selective islands Weak islands are configurations that block the displacement of certain elements in a sentence Examples of island violations with acceptable counterexamples include How much wine haven't you drunk but Which girl haven't you introduced to Mary How does John regret that he danced at the party but Who does John regret that he invited to the party or How much wine do you know whether you will produce but Which glass of wine do you know whether you'll poison For forty years or more explanations of the unacceptability of these island constructions have been syntactic Syntactic accounts have also provided some of the key empirical motivation for Chomsky's claim that universal grammar UG contains language independent abstract syntactic constraints But syntactic accounts however subtle fail to explain why many weak island violations are made almost acceptable by modals and attitude verbs as in How much wine aren't you allowed to drink How fast do you hope Lewis didn't drive or How does Romeo regret he was allowed to go to the party Dr Abrusán considers which contexts and expressions create or are sensitive to weak island violations and examines the factors that go some way to curing them She puts forward a semantic analysis to account for the unacceptability of violations of negative presuppositional quantificational and wh islands She explains why grammaticality violations can be obviated by certain modal expressions and why and how far the grammaticality judgments of speakers depend on the context of the utterance The book argues that there is no need to assume abstract syntactic rules in order to derive these facts rather they can be made to follow from independent semantic principles If correct this work has a fundamental consequence for the field of linguistics in general it removes some of the most important reasons for postulating abstract syntactic rules as part of UG and hence weakens the arguments for postulating a module of UG

Answer to the Form of Libel William Robertson Smith, 1878

Bearing Yhwh's Name at Sinai Carmen Joy Imes, 2023-06-21 The Name Command NC is usually interpreted as a prohibition against speaking Yhwh's name in a particular context false oaths wrongful pronunciation irreverent worship magical practices cursing false teaching and the like However the NC lacks the contextual specification needed to support the command as speech related Taking seriously the narrative context at Sinai and the closest lexical

parallels a different picture emerges one animated by concrete rituals and their associated metaphorical concepts The unique phrase *ns shm* is one of several expressions arising from the conceptual metaphor election as branding that finds analogies in high priest regalia as well as in various ways of claiming ownership in the Ancient Near East such as inscribed monuments the use of seals and the branding of slaves The NC presupposes that Yhwh has claimed Israel by placing Yhwh s own name on her In this light the first two commands of the Decalogue reinforce the two sides of the covenant declaration I will be your God you will be my people The first expresses the demand for exclusive worship and the second calls for proper representation As a consequence the NC invites a richer exploration of what it means to be a people in covenant with Yhwh a people bearing his name among the nations It also points to what is at stake when Israel carries that name in vain The image of bearing Yhwh s name offers a rich source for theological and ethical reflection that cannot be conveyed nonmetaphorically without distortion or loss of meaning

Conciliation in the Qur'an Shafi Fazaluddin, 2022-02-07 Conciliation in the Qur'an addresses an existing imbalanced focus in Islamic Studies on conflict in the Qur'an and moves beyond a restrictive approach to ul reconciliation as a mediation process in fragmented social contexts The book offers a critical analysis of conciliation as a holistic concept in the Qur'an providing linguistic and structural insight based on the renowned pre modern Arabic exegesis of Al R z d 1209 and the under studied contemporary Urdu exegesis of I l d 1997 This ambitious thematic study of the entire Qur'an includes an innovative examination of the central ethical notion of i s n gracious conduct and a challenging discussion of notorious passages relating to conflict The author offers solutions to unresolved issues such as the significance of the notion of i l order the relationship between conciliation and justice and the structural and thematic significance of Q 48 S rat Al Fat and Q 49 S rat Al ujur t Conciliation in the Qur'an offers a compelling argument for the prevalence of conciliation in the Islamic scripture and will be an essential read for practitioners in Islamic studies community integration conflict resolution interfaith dialogue and social justice

Cloze and Coherence John W. Oller, Jon Jonz, 1994 Cloze procedure is a family of testing and teaching methods that leave blanks in discourse and ask examinees to restore the missing elements Edited and coauthored by award winning scholars Cloze and Coherence shows how and why cloze procedure is sensitive to discourse constraints and it offers a comprehensive theory of semiotics showing what coherence is and reviewing a great deal of cloze research It traces in particular the history of cloze research pertaining to studies of coherence from Hermann Ebbinghaus in the 1890s to Wilson L Taylor in the 1950s until today The research presented here aims to show that cloze scores tend to fall if discourse constraints are disrupted Also explored are many subtle questions associated with this tendency Populations discussed include native and nonnative speakers of English native and nonnative speakers of French and certain special populations such as deaf subjects and educable mentally retarded subjects Contrary to some experts it appears from the theory and the research that all of the normal subject populations as well as the special populations examined here benefit from the cognitive momentum gained from the episodic organization of ordinary discourse This finding is sustained by research from Taylor Oller et al Cziko Bachman Jonz and Taira Further some of Jonz s recent work shows why scrambling encyclopedic text Timothy Shanahan and colleagues failed to produce any significant decrement in cloze scores Jonz demonstrated empirically that some texts just as Gary A Cziko had predicted are not made more difficult by scrambling their sentences because the sentences of those texts are in some cases arranged in the manner of a list rather than a logically or chronologically structured series Scrambling the list therefore has no significant impact The final chapter of this study gives a comprehensive review of research reportedly showing that cloze is not sensitive to coherence The authors show that all those efforts suffer from fatal flaws Cloze and Coherence offers advances of two kinds First a better theoretical basis for experimental research on discourse comprehension and on literacy and language acquisition is presented which stems from a fleshed out semiotic theory Second experimental advances whose results are published here for the first time appear in various studies by Jonz Chihara et al Oller et al and Taira This work is well researched and illustrated It includes figures tables appendices a glossary and an index It will be a valuable tool for language and literacy testers and teachers
