

## Security Service Termination Letter

[Employee's Name]

[Employee's Address]

[City, State, Zip Code]

Dear [Employee's Name],

This letter serves as formal notification of the termination of your employment with **[Your Company Name]**, effective **March 20, 2050**. This decision was reached after thorough consideration and is based on a series of performance issues and violations of company policy that have been documented and discussed in previous meetings.

### Reasons for Termination

- 1. Violation of Company Policy:** On **January 11, 2050**, you were found to have left your post unattended. This action not only jeopardizes the safety of our clients but also undermines the integrity of our security team.
- 2. Performance Issues:** Over the past few months, we have observed consistent performance issues, including inadequate reporting, failure to follow procedures, and poor communication. These issues were addressed during our performance reviews on **January 25, 2050**, and you were provided with support and resources to improve.
- 3. Failure to Improve:** Despite repeated discussions and written warnings regarding your performance and behavior, there has been insufficient improvement. On **March 02, 2050**, we reviewed the expectations set forth in your role, and unfortunately, those expectations have not been met.

### Next Steps

We appreciate the time and effort you have dedicated to your position; however, it is crucial for us to maintain the high standards of safety and security that our clients and employees rely on. Please be aware that the following steps must be taken as part of your termination process:

- Return of Company Property:** All company property, including uniforms, identification badges, keys, and any other materials, must be returned by **March 21, 2050**. Failure to do so may result in deductions from your final paycheck.
- Final Paycheck:** Your final paycheck will include payment for all hours worked up until your termination date, as well as any accrued but unused vacation time. You can expect this

**The Complete Guide to Physical Security** Paul R. Baker, Daniel J. Benny, 2012-11-19 To adequately protect an organization, physical security must go beyond the gates, guns, and guards mentality that characterizes most security programs. Creating a sound security plan involves understanding not only security requirements but also the dynamics of the marketplace, employee issues, and management goals. The Complete Guide to Physical Security discusses the assets of a facility, people, building, and location, and the various means to protect them. It emphasizes the marriage of technology and physical hardware to help those tasked with protecting these assets to operate successfully in the ever-changing world of security. The book covers specific physical security technologies such as intrusion detection, access control, and video surveillance systems, including networked video. It addresses the reasoning behind installations, how to work with contractors, and how to develop a central station for monitoring. It also discusses government regulations for building secured facilities and SCIFs (Sensitive Compartmented Information Facilities). Case examples demonstrate the alignment of security program management techniques with not only the core physical security elements and technologies but also operational security practices. The authors of this book have nearly 50 years combined experience in the security industry, including the physical security and security management arenas. Their insights provide the foundation for security professionals to develop a comprehensive approach to achieving physical security requirements while also establishing leadership roles that help further the overall mission of their organization. *Official Gazette* Philippines, 1998
