Oxford Textbook of Global Public Health Roger Detels, Martin Gulliford, Quarraisha Abdool Karim, Chorh Chuan Tan, 2017 Sixth edition of the hugely successful internationally recognised textbook on global public health and epidemiology comprehensively covering the scope methods and practice of the discipline

Collective Goods and Higher Education Research Roger Benjamin, 2018-09-19 With this volume the author demonstrates how a collective goods approach to higher education research can alleviate problems of rising costs declining resources and growing concerns about undergraduate learning In taking this approach the author presents new tools of analysis borrowed from cognitive science economics data analytics education technology and measurement science to investigate higher education s place in society as a public or private good By showing how these tools can be utilized to re orient current research this volume offers scholars and policy makers an argument for the large scale use of scientific and economic approaches to higher education s most pressing issues

Resources in Education, 1996

English as a Medium of Instruction in Higher Education Wenli Tsou, Shin-Mei Kao, 2017-06-13 This book presents the multiple facets of English as a Medium of Instruction EMI in higher education across various academic disciplines an area that is expected to grow constantly in response to the competitive global higher education market The studies presented were conducted in various EMI classrooms with data collected from observing and documenting the teaching activities and from interviewing or surveying EMI participants Through data analysis and synthesis cases across disciplines from engineering science technology business social science medical science design and arts to tourism and leisure service sectors are used to illustrate the various EMI curriculum designs and classroom practices Although the cases described are limited to Taiwanese institutions the book bridges the gap between planning and executing EMI programs across academic domains for policy makers administrators content teachers and teacher trainers throughout Asia

Ten Years to Midnight Blair H. Sheppard, 2020-08-04 Shows how humans have brought us to the brink and how humanity can find solutions I urge people to read with humility and the daring to act Harpal Singh former Chair Save the Children India and former Vice Chair Save the Children International In conversations with people all over the world from government officials and business leaders to taxi drivers and schoolteachers Blair Sheppard global leader for strategy and leadership at PwC discovered they all had surprisingly similar concerns In this prescient and pragmatic book he and his team sum up these concerns in what they call the ADAPT framework Asymmetry of wealth Disruption wrought by the unexpected and often problematic consequences of technology Age disparities stresses caused by very young or very old populations in developed and emerging countries Polarization as a symptom of the breakdown in global and national consensus and loss of Trust in the institutions that underpin and stabilize society These concerns are in turn precipitating four crises a crisis of prosperity a crisis of technology a crisis of institutional legitimacy and a crisis of leadership Sheppard and his team analyze the complex

roots of these crises but they also offer solutions albeit often seemingly counterintuitive ones For example in an era of globalization we need to place a much greater emphasis on developing self sustaining local economies And as technology permeates our lives we need computer scientists and engineers conversant with sociology and psychology and poets who can code The authors argue persuasively that we have only a decade to make headway on these problems But if we tackle them now thoughtfully imaginatively creatively and energetically in ten years we could be looking at a dawn instead of darkness

The Triumph of the Gun-Rights Argument Harry L. Wilson, 2015-01-16 Taking the bold position that the battle over gun control has already been won by the pro gun rights faction this book will be equally informative to those immersed in the debate and those new to it Gun control evokes passions equaled by few other subjects As this book shows the debate over firearms begins with cultural values and extends into questions of constitutional rights public health and safety and politics Examining its subject through the prism of the Sandy Hook shootings the book looks at the influence of elected officials the courts interest groups and average citizens in shaping gun control laws It shares poll results detailing what the public really thinks about guns and why and it explains the various components of gun policy and policymaking to show how they come together to form the current reality While small skirmishes about the right to bear arms will continue for some time the author a self described gun owning academic asserts that changing public opinion Supreme Court decisions dominance of gun rights interest groups the Democratic Party's virtual withdrawal from the discussion and a declining violent crime rate have formed a perfect storm resulting in the effective end of the gun control debate This assertion and the thoughtful examination that leads to it will be of equal interest to those engaged in the argument and those researching it for the first time

Brilliant Persuasion Stephen C. Young, 2016-11-24 The full text downloaded to your computer With eBooks you can search for key concepts words and phrases make highlights and notes as you study share your notes with friends eBooks are downloaded to your computer and accessible either offline through the Bookshelf available as a free download available online and also via the iPad and Android apps Upon purchase you ll gain instant access to this eBook Time limit The eBooks products do not have an expiry date You will continue to access your digital ebook products whilst you have your Bookshelf installed Step by step Brilliant Persuasion introduces you to a formidable selection of some of the most powerful persuasion techniques used by the most successful business men and women throughout the world Using practical exercises that you will effortlessly adapt into your everyday speech Brilliant Persuasion will ensure you Naturally lead people towards your way of thinking Quantum leap your negotiating skills Overcome objections Figure out the emotions behind your prospects decision making process and covertly use this to your advantage Understand and acquire the basic technics of the language of persuasion and how to quickly integrate them into everyday business and life scenarios Foster long term trust credibility and resonant rapport Understand why some words are more persuasive than others Subliminally plant suggestions and ideas into the minds of others
