5 pages | 1085 words

I tried to be circumspect in my deeds since was child. Maybe, I took after my father this feature because he is a businessman and should be proactive in making decisions. I wasn't that type of a child who didn't want to go to school and study, I liked doing homework, studying, and even writing various essays. When I was 14, I made my serious choice. I decided to get an academic education and become a businessman in the future. Since that time I tried to be specific in my goals and plans trying to get the best of possible opportunities.

### **My Career Goals During University**

Many students perceive university life as a sort of fun. And it is no wonder because it is the time when you meet new people who become your soul mates forever. It is when you have serious relationships, break-ups, quarrels, even make a family. I understood that university life is valuable because we learn the basics of how to effectively communicate with people, work in teams, groups, solve problems, work with time management, make realistic plans. His words made me look at my long term goals even in a more perseverant way. I understood that in such a volatile modern world, the university education was not enough. I tried never to miss a chance to enroll in extra curricular activities. For instance, I attended open lectures in local business schools, additional lessons in management teams, sales team, Saturday discussions about the global economy, psychology courses, a center for entrepreneurship. I tried to absorb all information connected with the business world, market, innovations because as a future businessman I had to be well-rounded. It was the most significant part of my university goals in term of getting a theoretical education. I didn't stop only on studying the material because business is connected with practice. When I was a senior student at the University of Economics in Prague at the Faculty of Business Administration, I became more involved in family business. My father owns a company which does in-depth research on innovations, cooperates and searches competitive start-ups. When I was free from studying my father explained to me how his business works, gave me professional advice. He offered me a part-time job as a junior business development manager. I worked on weekends learning about market research, networking with other companies, negotiating with potential clients. By doing this, I wanted to discover target companies which could be useful in my future private business. I wanted to continue my father's business. My target towards career was to expand his company to other countries, and this will help reach my personal career goal. I've...
