LaPoe, 2018-01-30 *Resistance Advocacy as News* Digital Black Press Covers the Tea Party examines the Black and mainstream press's digital interpretations of the Tea Party during President Barack Obama's first term The Tea Party narrative and the white ideologies disseminated by conservative groups was and continues to be an intricate story for journalists to tell This book tracks coverage of the Tea Party from the modern group's beginning in early February of 2009 until two weeks after the 2012 general presidential election in November While many mainstream journalists either fail to recognize or ignore all together the racial component that the Tea Party poses to Black solidarity this book shows that Black reporters working for the Black press absolutely recognize the racial component and provide more thorough discussions than their mainstream counterparts Historically the Black press has existed to fill holes of misrepresentation in the mainstream press to that end this book addresses questions surrounding the ongoing necessity of the Black press and whether our society is post-racial combining a quantitative analysis of implicit racial frames with a qualitative analysis of resonant myth and providing empirical evidence that Black people still struggle to have their voices heard in the mainstream press      **Project Work, Second Edition** Diana L. the privatisation of the steel industry in Italy completed between 1994 and 1995 It explores the history of the Italian steel industry by looking at the interplay of local intertwined interests political relations and ideological formations that characterised an idiosyncratic hegemonic historical bloc Rather than stigmatising this pattern as the legacy of a dysfunctional provincialism the authors mobilise Gramsci's theory of hegemony to explain how the Italian privatisation process unfolded to accommodate economic pressures political interests and ideological constraints of a hegemonic social group or aggregation of social groups Thus in reconstructing the privatisation of Italian steel this book proposes a hegemony theory of privatisation and more generally describes a model that explains how political and cultural dynamics give rise to idiosyncratic local variations in globally spreading policies It will be of interest to researchers academics and students in the fields of business history economics sociology and political science
