Industrial Engineering: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2012-08-31 Industrial engineering affects all levels of society with innovations in manufacturing and other forms of engineering oftentimes spawning cultural or educational shifts along with new technologies Industrial Engineering Concepts Methodologies Tools and Applications serves as a vital compendium of research detailing the latest research theories and case studies on industrial engineering Bringing together contributions from authors around the world this three volume collection represents the most sophisticated research and developments from the field of industrial engineering and will prove a valuable resource for researchers academics and practitioners alike Post-disaster Navigation and Allied Services over Opportunistic Networks Suman Bhattacharjee,Siuli Roy,Sipra Das Bit,2021-04-15 This book provides the details of developing a digital pedestrian map construction system over the intermittently connected mobile network Over the past couple of decades countries across the world both developing and developed have witnessed a significant number of disasters Thus it has become mandatory for each of the disaster prone countries to equip themselves with appropriate measures to cope with the challenges of providing post disaster services Some of the serious challenges are incapacitated communication infrastructure unstable power supply and inaccessible road networks Out of these challenges the destruction of road networks especially in developing countries acts as a major hindrance to effective disaster management To be more specific the success of a disaster response operation generally depends on the speed of evacuation and transportation of adequate amount of relief materials at the right time to the disaster affected areas Hence map based navigation support is a primary requirement for post disaster relief operations This book also provides the solution of the two other important post disaster management services such as situational awareness and resource allocation Both of these services are invariably dependent on the existence of navigation support Finally in order to offer such services the other challenge is to address the problem of incapacitated communication infrastructure This book also deals with such challenges in post disaster scenarios and develops automated post disaster management services Advanced Smart Computing Technologies in Cybersecurity and Forensics Keshav Kaushik,Shubham Tayal,Akashdeep Bhardwaj,Manoj Kumar,2021-12-15 This book addresses the topics

related to artificial intelligence the Internet of Things blockchain technology and machine learning It brings together researchers developers practitioners and users interested in cybersecurity and forensics The first objective is to learn and understand the need for and impact of advanced cybersecurity and forensics and its implementation with multiple smart computational technologies This objective answers why and how cybersecurity and forensics have evolved as one of the most promising and widely accepted technologies globally and has widely accepted applications The second objective is to learn how to use advanced cybersecurity and forensics practices to answer computational problems where confidentiality integrity and availability are essential aspects to handle and answer This book is structured in such a way so that the field of study is relevant to each reader's major or interests It aims to help each reader see the relevance of cybersecurity and forensics to their career or interests This book intends to encourage researchers to develop novel theories to enrich their scholarly knowledge to achieve sustainable development and foster sustainability Readers will gain valuable knowledge and insights about smart computing technologies using this exciting book This book Includes detailed applications of cybersecurity and forensics for real life problems Addresses the challenges and solutions related to implementing cybersecurity in multiple domains of smart computational technologies Includes the latest trends and areas of research in cybersecurity and forensics Offers both quantitative and qualitative assessments of the topics Includes case studies that will be helpful for the researchers Prof Keshav Kaushik is Assistant Professor in the Department of Systemics School of Computer Science at the University of Petroleum and Energy Studies Dehradun India Dr Shubham Tayal is Assistant Professor at SR University Warangal India Dr Akashdeep Bhardwaj is Professor Cyber Security Digital Forensics at the University of Petroleum Energy Studies UPES Dehradun India Dr Manoj Kumar is Assistant Professor SG SoCS at the University of Petroleum and Energy Studies Dehradun India

Mobile Tech Report 2014 John R. Roberts, 2014-01-10 If you read technology news you'll notice it's not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I've collected what happened in the industry in 2013 and make predictions on what will and won't happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I'm surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It's often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry

money out of our wallets So I cover the horse race aspect of the business who's up who's down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore's Law but the real answer is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won't and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T-Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I've divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix
