Attributes of 2D Shapes

I spy a shape that has/a:

Answer

3 sides, angles, and corners	triangle
4 sides and angles that are all equal	square
8 sides, angles, and corners	octagon
0 sides, angles, and corners	circle
a quadrilateral with only one pair of parallel sides	trapezoid
a quadrilateral with 4 equal sides and only opposite angles equal	rhombus
5 sides, angles, and corners	pentagon
a quadrilateral with only opposite sides equal to each other, all angles =	rectangle
6 sides, angles, and corners	hexagon

Attributes of 3D Shapes

I spy a shape that has:

Answer

2 curved surface, 2 faces, 0 vertices	cylinder
12 edges, 8 vertices, 6 square faces	cube
2 curved surface, 0 faces, 0 vertices	sphere
8 edges, 5 vertices, 5 faces	pyramid
2 curved surface, 1 face, 1 vertex	cone
12 edges, 8 vertices, 6 rectangular faces	rectangular prism

Performance Assessment Measure That Indicates Geometry Sufficiency of State Highways Andrew Tarko,Aveedibya Dey,Mario Romero,2015-09-01 The Indiana Department of Transportation INDOT selects projects for implementation by taking into account several criteria related to cross section alignment and safety to evaluate various geometry improvements to be carried out as a part of projects The existing practice uses an intuitive point allocation method to score these individual categories The current study proposes a methodology to evaluate these projects considering the safety and mobility impacts of the improvements which lie in the scope of each project This methodology is also used to screen roads based on existing geometry deficiencies with respect to a desirable design standard The road screening process and the project evaluation process form two steps that support the asset management process The road screening process helps in filtering road segments based on geometry deficiencies and identifies the least adequate road segments Projects may be further developed with estimated improvements to be carried out on such segments using detailed information regarding these improvements The asset management components discussed here rely on the evaluation of safety and mobility benefits corresponding to geometry changes To develop an up to date method the safety performance functions used in this method have been calibrated based on the latest crash data available for 2009 2011 Safety performance functions have been developed for rural two lane rural multi lane urban two lane and urban multi lane roads in the state of Indiana The crash modification factors

derived from these safety performance functions and speed adjustments from earlier studies supplemented with data available in Highway Capacity Manual are used to calculate the safety and mobility benefits

Assessment of Authentic Performance in School Mathematics Richard A. Lesh, Susan J. Lamon, 2013-04-03 This book is the result of a conference sponsored by the Educational Testing Service and the University of Wisconsin's National Center for Research in Mathematical Sciences Education The purpose of the conference was to facilitate the work of a group of scholars whose interests included the assessment of higher order understandings and processes in foundation level pre high school mathematics Discussions focused on such issues as the purposes of assessment guidelines for producing and scoring real life assessment activities and the meanings of such terms as deeper and higher order understanding cognitive objectives and authentic mathematical activities Assessment was viewed as a critical component of complex dynamic and continually adapting educational systems During the time that the chapters in this book were being written sweeping changes in mathematics education were being initiated in response to powerful recent advances in technology cognitive psychology and mathematics as well as to numerous public demands for educational reform These changes have already resulted in significant reappraisals of what it means to understand mathematics of the nature of mathematics teaching and learning and of the real life situations in which mathematics is useful The challenge was to pursue assessment related initiatives that are systematically valid in the sense that they work to complement and enhance other improvements in the educational system rather than act as an impediment to badly needed curriculum reforms To address these issues most chapters in this book focus on clarifying and articulating the goals of assessment and instruction and they stress the content of assessment above its mode of delivery Computer or portfolio based assessments are interpreted as means to ends not as ends in themselves Assessment is conceived as an ongoing documentation process seamless with instruction whose quality hinges upon its ability to provide complete and appropriate information as needed to inform priorities in instructional decision making This book tackles some of the most complicated issues related to assessment and it offers fresh perspectives from leaders in the field with the hope that the ultimate consumer in the instruction assessment enterprise the individual student will reclaim his or her potential for self directed mathematics learning

Performance-Based Learning Sally Berman, 2008 Provides excellent thorough examples of lessons for classroom use The lessons follow a user friendly pattern and include outstanding rubrics that can be adapted easily by the teacher Debra Rose Howell Teacher Monte Cristo Elementary Granite Falls WA Gives educators new to performance learning a broad collection of examples for using this model The sample lessons are tied to learning standards and incorporate a myriad of different modalities Rachel Moreno Associate Professional Specialist University of Notre Dame Motivate students and increase their achievement with high interest learning tasks Teachers can promote long lasting learning build higher order thinking skills develop individual student accountability and increase student achievement by incorporating performance learning tasks into the curriculum In this second edition of

Performance Based Learning Sally Berman demonstrates how this model can be modified for learners at different grade and ability levels and offers an abundance of sample lesson plans that show how to use performance based learning throughout the content areas The updated edition includes an expanded discussion of cooperative learning teams a new section on how to design effective performance based learning activities and a collection of reproducible masters for planning and implementation Chapters with lesson plans include A performance task to use as is or adapt for specific student groups The curriculum standards related to the task Reflection guidelines to help students evaluate their learning Web resources for planning and implementing performance learning tasks New and veteran teachers alike will use this detailed resource again and again to plan activities that engage students and inspire them to become invested in their own learning The Performance of Concentrated Solar Power (CSP) Systems Peter Heller, 2017-05-15 The Performance of Concentrated Solar Power CSP Systems Analysis Measurement and Assessment offers a unique overview of the information on the state of the art of analysis measurement and assessment of the performance of concentrated solar power CSP components and systems in a comprehensive compact and complete manner Following an introductory chapter to CSP systems and the fundamental principles of performance assessment individual chapters explore the component performance of mirrors and receivers Further expert written chapters look at system performance assessment durability testing and solar resource forecasting for CSP systems A final chapter gives an outlook on the actual methods and instruments for performance and durability assessment that are underdevelopment The Performance of Concentrated Solar Power CSP Systems Analysis Measurement and Assessment is an essential reference text for research and development professionals and engineers working on concentrated solar power systems as well as for postgraduate students studying CSP Presents a unique single literature source for a complete overview of the performance assessment tools and methods currently used for concentrated solar power CSP technology Written by a team of experts in the field of CSP Provides information on the state of the art of modeling measurement and assessment of the performance of CSP components and systems in a comprehensive compact and complete manner Mathematics 2005 performance in Puerto Rico, focus on the content areas , 11th International Conference on Turbochargers and Turbocharging IMechE, 2014-08-25 The future market forces and environmental considerations in the passenger car and commercial vehicle sector mean more stringent engine downsizing is far more prevalent Therefore novel systems are required to provide boosting solutions including hybrid electric motor and exhaust waste energy recovery systems for high efficiency response reliability durability and compactness The current emission legislations and environmental trends for reducing CO₂ and fuel consumption are the major market forces in the land and marine transport industries The internal combustion engine is the key product and downsizing efficiency and economy are the driving forces for development for both spark ignition SI and compression ignition CI engines in both markets Future market forces and environmental considerations for transportation specifically in the passenger car commercial vehicle and

the marine sectors mean more stringent engine downsizing This international conference is the latest in the highly successful and prestigious series held regularly since 1978 These proceedings from the Institution s highly successful and prestigious series address current and novel aspects of turbocharging systems design boosting solutions for engine downsizing and improvements in efficiency and present the latest research and development in this growing and innovative area Focuses on boosting solutions including hybrid electric motor and exhaust waste energy recovery systems Explores the current need for high efficiency reliability durability and compactness in recovery systems Examines what new systems developments are underway
