**Shopping for Pleasure** Erika Rappaport, 2021-06-08 In *Shopping for Pleasure* Erika Rappaport reconstructs London's Victorian and Edwardian West End as an entertainment and retail center. In this neighborhood of stately homes, royal palaces, and spacious parks and squares, a dramatic transformation unfolded that ultimately changed the meaning of femininity and the lives of women, shaping their experience of modernity. Rappaport illuminates the various forces of the period that encouraged and discouraged women's enjoyment of public life and particularly shows how shopping came to be seen as the quintessential leisure activity for middle and upper class women. Through extensive histories of department stores, women's magazines, clubs, tearooms, restaurants, and the theater as interwoven sites of consumption, *Shopping for Pleasure* uncovers how a new female urban culture emerged before and after the turn of the twentieth century. Moving beyond the question of whether shopping promoted or limited women's freedom, the author draws on diverse sources to explore how business practices, legal decisions, and cultural changes affected women in the market. In particular, she focuses on how and why stores presented themselves as pleasurable, secure places for the urban woman, in some cases defining themselves as instrumental to civic improvement and women's emancipation. Rappaport also considers such influences as merchandizing strategies, credit policies, changes in public transportation, feminism, and the financial balance of power within the home. *Shopping for Pleasure* is thus both a social and cultural history of the West End, but on a broader scale, it reveals the essential interplay between the rise of consumer society, the birth of modern femininity, and the making of contemporary London. **Crime,**

**Gender and Consumer Culture in Nineteenth-Century England** Tammy C. Whitlock, 2016-12-05 Whilst the actual origins of English consumer culture are a source of much debate, it is clear that the nineteenth century witnessed a revolution in retailing and consumption. Mass production of goods, improved transport facilities, and more sophisticated sales techniques brought consumerism to the masses on a scale previously unimaginable. Yet with this new consumerism came new problems and challenges. Focusing on retailing in nineteenth-century Britain, this book traces the expansion of commodity culture and a mass consumer-orientated market and explores the wider social and cultural implications this had for society. Using trial records, advertisements, newspaper reports, literature, and popular ballads, it analyses the rise, criticism, and entrenchment of consumerism by looking at retail changes around the period 1800-1880 and society's responses to them. By viewing this in the context of what had gone before, Professor Whitlock emphasizes the key role women played in this evolution and argues that the dazzling new world of consumption had beginnings that predate the later English, French, and American department store cultures. It also challenges the view that women were helpless consumers, manipulated by merchants' use of colour, light, and display into excessive purchases, or even driven by their desires into acts of theft. With its interdisciplinary approach, drawing on social and economic history, gender studies, cultural studies, and the history of crime, this study asks fascinating questions regarding the nature of consumer culture and how society reacts to the challenges this creates. **A Critical**
