### **Long Welcome Speech for Sports Day By Principal**

Good morning everyone, I am very happy to see everyone blooming in the spirit of the sports day. It is an absolute honor to introduce to you all the Chief guests/guests (mention their names) today, we feel privileged to host you today. I would like to thank you for accepting our invitation and gracing us with your presence. Your achievements in the field of sports are excellent and your contribution to raising the bar for future generations by bringing laurels to our country is truly noteworthy.

A very warm welcome to the parents and families who are here to support their children. It is difficult to navigate these past few weeks for children who are working hard and preparing for the main day. It is because of your affection and encouragement that we see our children in high spirits, even after such tiring days.

The annual sports day is a tradition that started ever since the school was established. My heart is overjoyed to see such enthusiastic participation by all our students who are carrying forward the torch of march pasts, and sports drills. Every year the level of anticipation only increases. It makes us more excited to see what's coming ahead.

The primary focus in many cases is academics, which certainly is an important aspect in building a student's career and life but many fail to recognize the importance of sports.

Extracurricular activities and sports teach students many important life lessons. It teaches discipline, focus, dedication, hard work, commitment, teamwork. And it is our responsibility as adults to value sportsmanship and award the courage of students to take action rather than focusing on winning or losing.

Sports instill plenty of values that help students to cruise through life with honesty and responsibility for themselves and others. It also allows students to be agile and fit that only increases the concentration in academics and the willingness to perform better in any field.

Sport is an amazing concept that improves the lives of people. Students especially need to take part in sports that they find fun because participating in sports will not only help them to improve their physical health but will also give

Anabel Eggeling, 2020-04-29 This book investigates the political implications of country promotion through practices of nation branding by drawing on contemporary examples from the sports urban development and higher education sector in Kazakhstan and Qatar Nation branding has emerged as a central practice of international politics where it is commonly understood as a vain superficial selling technique with little political salience Drawing on shared insights from practice theory and constructivist notions of nationalism identity and power this book challenges this reading and instead argues that nation branding is neither neutral nor primarily economically motivated but inherently politicised and tied to the legitimization of current political regimes The starting point for the analysis is a range of everyday practices and sites long ignored by international relations scholars In particular the book traces how the political leadership in Kazakhstan and Qatar have used participation in the international sports circuit spectacular urban development and the construction of world class universities to first produce and then stabilize new ideas about their state Providing a new analytical perspective on nation branding this book will be of interest to students and scholars of Middle Eastern and Central Asian studies International Relations and Cultural and Political Geography
