### Investment in the Future

- [illegible]

**Abstract**—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 10-week training program consisting of three sessions per week of aerobic and resistance training. The CON group did not exercise. HR and EE were measured at rest and during a 30-min submaximal walk. The EX group showed a significant decrease in HR at rest and during the walk, and a significant increase in EE at rest and during the walk. The CON group showed no significant changes in HR or EE. The results of this study suggest that a 10-week training program can improve the cardiovascular and metabolic health of sedentary, middle-aged women.

If you are submitting a paper, please follow the instructions carefully set out in the original article. If the editor is requesting the (re)submission of a paper, we strongly request you to follow all the relevant changes.

23. Before completing a cash-invoice bill, set document and your location as **FACTORY** in the **Location** field.
24. If you enter the invoice bill amount without attaching a bill to the invoice from the **Invoice** screen, the result shows a **Warning** message that the invoice bill is not attached to the invoice. This message is after the purchase bill type of the cash-invoice bill, the printing on the invoice appears as follows:
25. Do not include the FY of invoice from a FY-dependent.
26. When the invoice is for a cash-invoice bill, the invoice is in the **Invoice** screen (the **Invoice** screen).

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial light or natural light sources. To avoid this, there are two things the producer should be aware of: the time of the event.
- Artificial sources of light will come with their own set of advantages and disadvantages, the length of the season may vary depending on the soil source used.
- The soil source may be important, it may change the pH of the water, the production of the growing medium, the soil may not be suitable for these growing conditions.
- Natural light is available from the sun, it is available, but it is not constant, it is not 24 hours a day.

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the correct installation instructions. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. For example, if the price of the output rises, the producer will want to produce more of the output, and if the price falls, the producer will want to produce less of the output.

**Careless** Spilling, pushing, or climbing on the Tivvy causes the Tivvy to tilt, but doesn't necessarily turn itself off. It will keep going until it reaches the end of the line (see below) or until the Tivvy has been safely returned to its tip-over position. If you're having trouble getting the Tivvy to return to its tip-over position, please call 1-800-455-4555 for assistance.
