Rompella, 2016-01-04 Interactive Notebooks Science for grade 3 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about plant and animal adaptations, the human body, matter, force and motion, simple machines, the solar system and more. This book is an essential resource that will guide you through setting up, creating and maintaining interactive notebooks for skill retention in the classroom. High interest and hands-on interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience. Sleep Apnea T.
