Restaurant Design Bethan Ryder,2004 Bethan Ryder celebrates the most inspirational and beautiful restaurant spaces from around the world places built to seduce diners and capture the imagination Internationally renowned designers featured include Christian Liaigre David Rockwell Philippe Starck David Schefer Jordan Mozer and Patrick Jouin **From Canton Restaurant to Panda Express** Haiming Liu,2015-09-09 The story of Chinese Americans through the lens of food From Canton Restaurant in 1849 to Panda Express today Chinese food history in America spans over 150 years Chinese Forty niners were mostly merchants and restaurateurs who migrated here not to dig gold but to do trade Racism against the Chinese slowed down the growth of the Chinese restaurant business in the late 19th century but it made a rebound in the format of chop suey From 1900 to the 1960s chop suey as imagined authentic Chinese food attracted numerous American customers including Jewish Americans as its collective fan Then the real Chinese food such as Hunan Sichuan or Shanghai cuisine replaced chop suey houses in the 1970s following the arrival of new Chinese immigrants after immigration reform in 1965 Those regional flavored Chinese restaurants were brought in and established by immigrants from Taiwan rather than mainland China As Chinese restaurants in America turned Chinese in flavor P F Chang s and Panda Express rose fast in the 1990s to meet the need of constantly changing and often multi ethnically blended eating habits of American customers Chinese food in America is a fascinating history about both Chinese and Americans Embedded in this history is the story of human migration culinary tradition racial politics ethnic identity cultural negotiation Chinese Diaspora and transnational life and Chinese cuisine as a global food Though a scholarly work this book aims at all readers who are interested in food history and culture Provided by publisher

Latino Metropolis Victor M. Valle,Rodolfo D. Torres,2000 Los Angeles scratch the surface of the city s image as a rich mosaic of multinational cultures and a grittier truth emerges its huge shimmering economy was built on the backs of largely Latino immigrants and still depends on them This book exposes the underside of the development and restructuring that have turned Los Angeles into a global city and in doing so it reveals the ways in which ideas about ethnicity Latino identity itself are implicated and elaborated in the process A penetrating analysis of the social economic cultural and political consequences of the growth of the Latino working class populations in Los Angeles Latino Metropolis is also a nuanced account of the complex links between political economy and the social construction of ethnicity Lifting examples from recent news stories political encounters and cultural events the authors demonstrate how narratives about Latinos are used to maintain the status quo particularly the existing power grid in the city In media representations of riots in the recasting and whitening of Mexican food as Spanish American cuisine in the community displacement that occurred as part of the development of the Staples Center in telling instances large and small we see how Los Angeles and its Latino population are mutually transforming And we see how an old Latino politics of racial identity is inevitably giving way to a new politics of class Combining political and economic insight with trenchant social and cultural

analysis this work offers the clearest statement to date of how ethnicity and class intersect in defining racialized social relations in the contemporary metropolis Globalization and Community Series volume 7 Translation Inquiries University of Minnesota Press Won't You be My Neighbor Camille Zubrinsky Charles, 2006-10-19 Los Angeles is a city of delicate racial and ethnic balance As evidenced by the 1965 Watts violence the 1992 Rodney King riots and this year's award winning film Crash the city's myriad racial groups coexist uneasily together often on the brink of confrontation In fact Los Angeles is highly segregated with racial and ethnic groups clustered in homogeneous neighborhoods These residential groupings have profound effects on the economic well being and quality of life of residents dictating which jobs they can access which social networks they can tap in to and which schools they attend In Won't You Be My Neighbor sociologist Camille Zubrinsky Charles explores how modern racial attitudes shape and are shaped by the places in which people live Using in depth survey data and information from focus groups with members of L A's largest racial and ethnic groups Won't You Be My Neighbor explores why Los Angeles remains a segregated city Charles finds that people of all backgrounds prefer both racial integration and a critical mass of same race neighbors When asked to reveal their preferred level of racial integration people of all races show a clear and consistent order of preference with whites considered the most highly desired neighbors and blacks the least desirable This is even true among recent immigrants who have little experience with American race relations Charles finds that these preferences which are driven primarily by racial prejudice and minority group fears of white hostility taken together with financial considerations strongly affect people's decisions about where they live Still Charles offers reasons for optimism over time and with increased exposure to other racial and ethnic groups people show an increased willingness to live with neighbors of other races In a racially and ethnically diverse city segregated neighborhoods can foster distrust reinforce stereotypes and agitate inter group tensions Won't You Be My Neighbor zeroes in on segregated neighborhoods to provide a compelling examination of the way contemporary racial attitudes shape and are shaped by the places where we live **Appletons' guide to Mexico, including a chapter on Guatemala** Alfred Ronald Conkling, 1884

The Global Japanese Restaurant James Farrer,2023 With more than 120 000 Japanese restaurants around the world Japanese cuisine has become truly global Through the transnational culinary mobilities of migrant entrepreneurs workers ideas and capital Japanese cuisine spread and adapted to international tastes But this expansion is also entangled in culinary politics ranging from authenticity claims and status competition among restaurateurs and consumers to societal racism immigration policies and soft power politics that have shaped the transmission and transformation of Japanese cuisine Such politics has involved appropriation oppression but also cooperation across ethnic lines Ultimately the restaurant is a continually reinvented imaginary of Japan represented in concrete form to consumers by restaurateurs cooks and servers of varied nationalities and ethnicities who act as cultural intermediaries
