Restorative Justice Dennis Sullivan, Larry Tifft, 2001 This bold uncompromising essay offers a dual challenge to anyone interested in issues of justice First it poses a radical critique of current criminal justice practices in favor of a restorative justice alternative Then it advocates a radical reformulation of the thinking and practices of restorative justice itself Restorative justice is a growing movement that strives to achieve reconciliation between crime victims and the persons who have harmed them through the use of various forms of mediation and nonviolent conflict resolution Many programs embodying this approach have been launched in North America and abroad The authors call for two vast revisions in restorative justice thinking replacing justice practices based on rights and deserts with approaches that seek to meet the needs of all including the harm doer and the community as well as those directly affected by a harm and applying these principles to a broad range of social institutions including families schools workplaces and neighborhoods in addition to the justice system **Restorative Justice**, 2005 *Handbook of Restorative Justice*, *Handbook of Restorative Justice*

High and Low Corruption Harry Adams, 2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed

Restorative Justice and the Law Lode Walgrave,2012-12-06 Restorative justice has developed rapidly from being a barely known term to occupying a central role in debates on the future of criminal justice But as it has become part of the mainstream of debate so new tensions and issues have emerged One of the most crucial issues is to find an appropriate combination of restorative justice based essentially on informal deliberation and the law The purpose of this book is to analyse the several dimensions to this issue It explores the social and ethical foundations of restorative justice seeks to position it in relation to both rehabilitation and punishment and examines the possibility of developing and incorporating restorative justice as the mainstream response to crime in terms of the principles of constitutional democracy Amongst the questions it addresses are the following How are informal processes to be juxtaposed with formal procedures What is the appropriate relationship between voluntarism and coercion How can the procedures and practices of restorative justice be combined with legal standards safeguards and precepts How can one balance restorative responses with legally sanctioned punishment In this book a distinguished team of contributors consider this crucial set of relationships between restorative justice and the law building upon papers and discussions at the fifth international restorative justice conference in Leuven Belgium in September 2001 restorative justice has grown rapidly throughout the worldthis book addresses the central issue of relationship of restorative justice to existing law and legal systemschapters from world leading authorities

The Ethics of Total Confinement Bruce A. Arrigo, Heather Y. Bersot, Brian G. Sellers, 2011-06-29 In three parts this volume in the AP/LS series

explores the phenomena of captivity and risk management guided and informed by the theory method and policy of psychological jurisprudence The authors present a controversial thesis that demonstrates how the forces of captivity and risk management are sustained by several interdependent conditions of control These conditions impose barriers to justice and set limits on citizenship for one and all Situated at the nexus of political social theory mental health law and jurisprudential ethics the book examines and critiques constructs such as offenders and victims self and society therapeutic and restorative health harm and community So too are three total confinement case law data sets on which this analysis is based The volume stands alone in its efforts to systematically diagnose the moral reasoning lodged within prevailing judicial opinions that sustain captivity and risk management practices impacting 1 the rights of juveniles found competent to stand criminal trial the mentally ill placed in long term disciplinary isolation and sex offenders subjected to civil detention and community re entry monitoring 2 the often unmet needs of victims and 3 the demands of an ordered society Carefully balancing sophisticated insights with concrete and cutting edge applications the book concludes with a series of provocative yet practical recommendations for future research and meaningful reform within institutional practice programming and policy The Ethics of Total Confinement is a thought provoking and timely must read for anyone interested in the ethical and legal issues regarding madness citizenship and social justice It has become clear that there is no criminological exit from embrace of degrading punishments and practices to which our increasingly distorted risk perception commits us Instead the path forward must run through a return to the ethical and psychological roots of security and justice The Ethics of Total Confinement is a quantum step forward in defining and advancing that path Jonathan Simon Adrian A Kragen Professor of Law Jurisprudence and Social Policy Program UC Berkeley School of Law This book boldly calls for a total transformation in the way the law deals with people who are confined because of their perceived depravity or dangerousness It focuses on three outcast groups juveniles tried as adults people with mental illness subjected to hospitalization and sex offenders committed as dangerous and based on an innovative analysis of the relevant caselaw and empirics shows why current practices not only visit substantial harm on these people but also brutalize those who deprive them of liberty and damage the rest of us by feeding our basest most uninformed fears Relying on Aristotelian philosophy therapeutic and restorative principles and commonsense justice the book persuasively argues that we must reorient the training and thinking of all major players in the system if our goal is to promote the maximum amount of human flourishing Christopher Slobogin Milton Underwood Professor of Law Vanderbilt University Law School The Ethics of Total Confinement A Critique of Madness Citizenship and Social Justice deepens our understanding of how our legal system justifies its treatment of those it confines By bridging gaps among relevant disciplines the book clarifies to an interdisciplinary audience just how inadequate those justifications turn out to be when measured by psychological ethical or justice based standards The book s provocative conclusions and recommendations offer much food for thought and suggest potential directions for action Dennis Fox

Emeritus Associate Professor of Legal Studies and Psychology University of Illinois at Springfield The Ethics of Total Confinement shows how captivity diminishes the keepers and the kept It is a book that synthesises in creative new ways reformist visions of justice virtue and the cultivation of habits of character This is profound work that opens new paths to dignity healing and social justice John Braithwaite Australian Research Council Federation Fellow Australian National University The Ethics of Total Confinement offers a useful and wide ranging perspective grounded in psychological jurisprudence With its emphasis on the harm done to those most vulnerable to extremes of risk management this volume makes a welcome addition to the literature on confinement Lorna Rhodes Professor Department of Anthropology University of Washington The provocative thesis of this book develops psychological jurisprudence to conceptualize the ethics of existing total confinement practices aspiring to greater justice and human flourishing for all A timely intervention of this kind is most welcome George Pavlich Associate Vice President Research Professor of Law and Sociology University of Alberta
