Effects of Engagement and Resources on Learning Outcomes in Vocational Colleges: Emerging Research and Opportunities Malechwanzi, Joseph Muthiani, 2019-08-30 A main staple of today's world that has played a key role in the development of society is education and institutions of higher learning. An ongoing concern however has been the lack of access and resources to superior teaching in developing areas of the world. Student engagement and learning environments are just a few elements that play into the success of colleges in areas like the Coast Region of Kenya. Research must be done in understanding the correlation between the tools that these institutions are equipped with and the educational results of their students. *Effects of Engagement and Resources on Learning Outcomes in Vocational Colleges: Emerging Research and Opportunities* is an essential reference source that discusses the relationship between college resources and students' learning outcomes as well as contributing factors in promoting quality education and training. Featuring research on topics such as research philosophies, teaching workloads, and student engagement, this book is ideally designed for teachers, deans, researchers, education professionals, administrators, policymakers, government officials, and academicians seeking coverage on the methods of acquiring and maintaining quality education in developing countries. **Kenya National Assembly Official Record (Hansard)**, 1991-07-02 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya, the House of Representatives of the Government of Kenya, and the National Assembly of the Republic of Kenya. **Theory and Practice of Finance** Baafi Antwi Joseph (Ph.D), Gladwel Wughanga Mwangasu, Mehrnoush Shahhosseini, Rosa Mukami, Angkawipa Kangsanarak, David K. It contains notices of new legislation, notices required to be published by law or policy, as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week. **Discourses of Globalisation and Higher Education Reforms** Joseph Zajda, W. James Jacob, 2022-03-15 This book examines some of the major higher education reforms and policy shifts globally, particularly in the light of recent shifts in quality and standards-driven education and policy research. It critiques the neo-liberal ideological imperatives of current higher education and policy reforms and illustrates the way that changes in the relationship between the state and higher education policy affect current trends in higher education reforms. Using diverse comparative education paradigms from critical theory to historical comparative research, the chapters focus on globalisation ideology and higher education reforms and examine both the reasons and outcomes of higher education reforms and policy change. The book analyses and evaluates the policy shifts in methodological approaches to globalisation and higher education reforms and their impact on education policy and pedagogy. The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation, comparative education research, and higher education reforms. *Kenya Gazette*

Mobilization for Violent Politicized Islam Hawa Noor,2024-08-05 This book focuses on the involvement of some Kenyans in al Shabaab an affiliate of Al Qaeda based in Somalia despite their country s relative stability compared to Somalia It discusses the origin of the Kenyan state and how colonization created social stratification that benefited elites closer to the center while excluding marginalized groups at the periphery The argument is that this pattern still prevails despite attempts to enhance equality such as the adoption of a new constitution in 2010 promoting the devolution of power and resources The persistence of this condition it is argued is what initially handed al Qaeda and later al Shabaab opportunities for mobilization enabled by its creative politicization of religion The heavy handed tactics employed by security forces under the auspices of the War on Terror further catalyzed this process resulting in more Kenyan individuals joining the group Using an historical and political process approach the book shows how the interplay of structural conditions and al Shabaab s mobilization strategy linked with individuals motivations for joining the group Based on individuals own narratives about their participation the latter is empirically demonstrated to be non linear incorporating motivations beyond rational ones contrary to the overemphasis on ideology in the literature on participation in groups similar to al Shabaab This book will of much interest to students of political violence African politics Islamic studies and International Relations Egerton College Agricultural Bulletin ,1977 *Book of Abstract.
