Yes, We Are Stupid in America! Dr. Vicky Wells, 2013-01-21 Students in countries such as Finland South Korea and Singapore continue to outperform their peers in America But that hasnt stopped the United States government from spending more money on education as achievement plummets Dr Vicky Wells a former school principal explores whats going on at the federal state and local levels so that members of the public can hold bureaucrats accountable In a series of reality checks she explains how to meet the growing crisis head on equip students with the necessary skills upon graduation make decisions based upon the input of real life educators and ignore politics in order to best serve students Teachers and parents trust leaders to make decisions based on whats best for the students Even so all too often decision making seems to be more about politics and quid pro quo and this does not best serve students educators or the community The educational system continues to decline and students keep dropping out or graduating without the knowledge they need to succeed Its time to stop constantly changing curriculum and start focusing on the real problems confronting teachers and students **Georgia**
