PARLIAMENT LIMITS THE ENGLISH MONARCHY

From 1485 to 1558, England was ruled by Tudor kings and queens, including Queen Elizabeth I. The Tudors believed in the **divine right of kings**, which means they thought their power came directly from God. However, they also worked with Parliament to solve their most serious problems. Elizabeth I died without any children to inherit the throne, which led to the **English Reformation** being begun in 1534, under the Tudors, the Church was not so good at working with Parliament.

The Tudors used Parliament to help to rule as absolute monarchs, meaning they wanted total control. James I's son, Charles I, caused even more problems, the parliament in prison without fair trials, demanded extremely high taxes, and made the Parliament angry by ignoring their laws. When Parliament said no, Charles was in a bind. In 1642, he led to the **English Civil War** between Charles I and Parliament. After seven years of fighting, Parliament won. They put Charles I to the sword and elected him as their king from the European long to his country succeeded. For a while, England became a republic called the **Commonwealth**, with no king at all. But in 1660, Parliament re-established it, the son of Charles I, is becoming king.

During Charles I's reign, an important law called the **Bill of Rights** was passed in 1689. This law said that the king could not be put in prison without a trial, and they had the right to set a judge. It showed the way from improving the position for the monarch.

When Charles I died in 1649, his brother James II succeeded him. James was Catholic, which upset many Protestants in England. He gave important jobs to Catholics and got rid of Parliament when it disagreed with him. In 1688, after James II wife had a son and would be queen Catholic, many Protestants wanted that a Catholic family would rule England forever.

To stop this, Parliament asked Mary, James's daughter-in-law, and her husband, William, to rule England. James II fled to France, and there was no fighting. The event was called the **Glorious Revolution**. Before becoming king, William and Mary agreed to the **Bill of Rights**, which gave Parliament more power and said that the king or queen had to work with Parliament. It also gave Parliament control over the country's money. This marked the start of England becoming a constitutional monarchy, where the king or queen's powers are limited by laws, and Parliament.
