Rethinking Classroom Design Todd Finley, Blake

Wiggs, 2016-03-08 Have you ever entered a building or room for the first time and felt enhanced felt your body relax and spirit elevate The effect of human made environments on learners brains is not subjective According to research studies we all have measurable responses to the design of a space However despite the many resources discussing how to decorate and design elementary school classrooms few resources on middle and secondary level classroom design are available This book fills that gap Moreover the purpose of this guide is to enhance learning spaces boost student performances and positively extend teachers influence Every instance where you make well considered decisions about your classroom helps students lead self actualized lives This book will help you make those decisions by providing information about everything from students favorite seating arrangements to what temperature is ideal for learning And learners will feel that effort every time they step foot in your room

Rethinking Our War on Drugs Gary L. Fisher, 2006-09-30 The National Drug Control Policy has failed its two major functions supply reduction and demand reduction due to faulty assumptions regarding nearly every aspect of the alcohol and drug fields charges author Fisher Yet in spite of overwhelming evidence of this failure policy makers have strongly resisted discussing major changes to the assumptions that underly current policy because of political pressure bias and philosophical intransigence he adds Fisher discusses controversial topics and defends uncommon approaches in chapters focused on subjects including legalization harm reduction the futility of supply reduction the problem of underage drinking and effectiveness of treatment and prevention He proposes a new national policy for drug control including elimination of the war metaphor inclusion of alcohol in the mandate conceptualization of addiction as a public health problem utilization of harm reduction principles to guide policy and discontinuation of approaches that isolate drug

and alcohol problems from their connection to broader social issues such as poverty In this work the premises of the current National Drug Control Strategy are challenged and both Democratic and Republican administrations across the last 10 years are critically examined Statements of the Director of the Office of National Drug Control Strategy are critiqued Major points include that there is no evidence the NDCS has achieved any of its goals that harm reduction should be its guiding principle and supply reduction should not be part of the national strategy

Literacy for All Children Carolyn M. Lawrence, 2004 Drawing upon thirty two years of experience in public education ranging from the classroom to the principal's office author Carolyn Lawrence offers advice insight and inspiration to her readers about how to make reading accessible and even fun for students However Lawrence's point stretches far beyond literacy and delves into the idea that all students regardless of background and correct instructional level are capable of learning and benefiting from a positive school environment Her intention is to make the reader a participant in the school's life to give an insider's view of how much soul it takes to make a school successful Through anecdotes and personal experience Lawrence provides all readers both educators and others with a deeper understanding of the challenges of public education She demonstrates the role of the teacher and the principal as the instructional leader and a daily participant in classroom life juggling a variety of roles and responsibilities This book is useful to all readers with a concern for education and particularly for practicing and training school administration and others concerned with curriculum and instruction planning It will also be helpful in preparing teacher education students and new teachers for the classroom

Poison Ivy Evan Mandery, 2025-03-18 Hailed as a staggering portrait of inequality in America Philip Dray Poison Ivy tells the bigger seedier story of how elite colleges create paths to admission available only to the wealthy despite rhetoric to the contrary In a lively and trenchant Washington Monthly account Evan Mandery a Harvard graduate and current professor at a public college that serves low and middle income students reveals how tacit agreements between exclusive Ivy plus schools and white affluent suburbs create widespread de facto segregation And as a college degree continues to be the surest route to upward mobility the inequality bred in our broken higher education system is now a principal driver of skyrocketing income inequality Mandery contrasts the lip service paid to opportunity by so many elite colleges and universities with schools that actually walk the walk Now in an accessible paperback format Poison Ivy is a no holds barred takedown Forbes that synthesizes fascinating insider information on everything from how students are evaluated unfair tax breaks and questionable fundraising practices to suburban rituals testing tutoring tuition schemes and more This bold provocative

indictment of America's elite colleges shows us exactly what's at stake and what will be possible if we muster the collective will to transform it Special Report to the U.S. Congress on Alcohol & Health ,1990 *Metropolitan Lives* Rebecca Zurier,Robert W.
