A New Global Geometry? Greg Albo, 2024-06-18 Scrutinizes possibilities for an equalised global order in light of recent conflicts between the world s major powers The post Cold War era is definitively over asserted US President Joe Biden as he launched the new National Security Strategy warning in late 2022 that a competition is underway between the major powers to shape what comes next American leadership the document declared would be more necessary than ever to define the future of the international order insisting that the US must marshal its unparalleled economic military and diplomatic resources to confront its geopolitical rivals Socialist Register 2024 *A New Global Geometry* takes stock of momentous changes on the horizon Even if these geopolitical shifts do not spell the end of globalization how might they alter its historical trajectory While it is premature to speak of the end of the liberal economic order let alone the development of a multipolar international system can we begin to assess the dimensions of a new global geometry And how might we assess the potential vulnerabilities of socialist movements worldwide alongside the potential resistance our movements might manage to present grounded in our historical demands for a democratic and equalizing world order *Congressional Record*, *US Foreign Policy and Global Standing in the 21st Century* Efraim Inbar, Jonathan Rynhold, 2016-01-13 This book examines US foreign policy and global standing in the 21st Century The United States is the most powerful actor in world politics today Against this backdrop the present volume examines how the foreign policies pursued by Presidents George W Bush and Barack Obama have affected elite and public perceptions of the United States By examining America s standing from the perspective of different actors from across various regions including China Russia Latin America and the Middle East while also

assessing how these perceptions interact with America's own policies this book presents a fresh interpretation of America's global standing In doing so the volume evaluates how these perceptions affect the realities of US power and what impact this has on moulding US foreign policy and the policies of other global powers A number of books address the question of which grand strategy the United States should adopt and the issue of whether or not America is in relative decline as a world power However the debate on these issues has largely been set against the policies of the Bush administration By contrast this volume argues that while Obama has raised the popularity of America since the low reached by Bush America's credibility and overall standing have actually been damaged further under President Obama This book will be of much interest to students of US foreign policy US national security strategic studies Middle Eastern politics international relations and security studies generally

Chicago and the World Richard C. Longworth, 2021-10-28 Chicago has belonged to the world for a century but its midcontinental geography once demanded a leap of the intellect and imagination to grasp this reality During that century the Chicago Council on Global Affairs guided and defined the way Chicago thinks about its place in the world Founded in 1922 as the Chicago Council on Foreign Relations as a forum to engage Chicagoans in conversations about world affairs both its name and mission have changed Today it is an educational vehicle that brings the world to Chicago and a think tank that works to influence that world At its centenary it is the biggest and most influential world affairs council west of New York and Washington with a local impact and global reach Chicago and the World is a dual history of the first one hundred years of the Chicago Council on Global Affairs and of the foreign policy battles and debates that crossed its stage The richness of these debates lay in their immediacy All were reports from the moment analyses of current crises and were delivered by men and women who had no idea how the story would end Some were comically wrong others eerily prescient and some so wise that we still profit from their lessons today The history of the past century reflects the history of the Council from its birth as a worldly outpost in a provincial hotbed of isolationism to its status today as a major institution in one of the world's leading global cities It is a tumultuous history full of ups and downs driven by vivid characters and enlivened by constant debate over where the institution and its city belong in the world The Council of today has a bias very similar to that of the Council of 1922 that openness is the only rational response to global complexity It rejected the isolationism of 1922 and it rejects nationalism now In 1922 it recognized that the outside world affected Chicago every day In 2022 it insists that Chicago affects that world Chicago then was a receptor for outside ideas Chicago today is a generator of ideas and events Both the world and Chicago have changed but the Council's goals openness clarity involvement remain the same History of the Council The Chicago Council on Global Affairs was founded in 1922 amid the aftermath of World War I the Senate's rejection of the League of Nations and the influenza pandemic of 1918 Today at its centenary it is the biggest world affairs council west of New York and Washington DC It is both a forum for debate on global issues and a think tank working to influence those issues Chicago

and the World offers a dual history of the Council and the great foreign policy issues of the past century Founded in America's heartland the Council now guides the international thinking of one of the world's great global cities Its speakers include the men and women who shaped the century Georges Clemenceau Jawaharlal Nehru Jan Masaryk George Marshall Eleanor Roosevelt Walter Lippmann Margaret Thatcher Willy Brandt Helmut Kohl Henry Kissinger Ronald Reagan Mikhail Gorbachev Joseph Biden and Barack Obama among others There have been Nobel Prize winners and Nazis one worlders and America Firsters The Council emerged in a Chicago dominated by isolationism It led the great debate over American participation in World War II and after that war over our nation's new dominant role in the world As a forum it struggled with major issues Vietnam the Cold War 9 11 As a think tank it helps lead our nation's thinking on global cities global food security the global economy and foreign policy The Council's one hundredth anniversary follows another pandemic the Covid 19 crisis at a time when a new wave of nationalism and nativism distorts America's place in the world The Council sees itself as nonpartisan but not neutral in this debate It is committed to the ideal of an informed citizenry at home and openness and involvement abroad

Global Governance and International Cooperation Richard Falk, Augusto Lopez-Claros, 2024-03-07 The Global Governance Forum and the Global Challenges Foundation collaborate in this collection in their concern that the UN Charter and the contemporary infrastructure for international cooperation are no longer fit for purpose and lack the instruments resources and legitimacy to address the catastrophic risks threatening our future Twenty eight contributors offer thoughtful proposals for reforming existing international institutions and creating new ones to build a more peaceful prosperous and just world covering themes such as the management of weapons of mass destruction collective security arrangements justice and equity in economics human rights migration and refugees climate mitigation and food security all bearing on the health of both people and planet The vital project of this century is building institutions that will underpin global governance in coming decades requiring imagination persistence empathy and confidence that we will find a path to enhanced mechanisms of binding international law and the resources to make that happen The volume is essential reading for scholars and researchers on international politics and public policy and indispensable for diplomats and government agencies The Washington Post Index ,1996 Civil Affairs in Occupied and Liberated Territory United States.
