The Truckie Who Loved Trains:

The Truckie Who Loved Trains David Wilcox, 2016-02-01 This is the story of Ken Thomas educated with two university degrees but nothing about trucks who was misled into buying a truck by a sham relative at the end of the Second World War. After this shaky start came problems with government regulations and road taxes. All the state governments wanted to protect their rail networks so road and rail industries hated each other. Ken's father was a steam engine driver and Ken could see that the entrepreneurial energy of the private transport companies and the government railway networks should be partners not enemies. With practical business like common sense Ken led the way to achieve this in Australia and overseas. Ken described this as a red blooded gutsy period culminating in an ambush in the TNT boardroom. In the transport game there is no standing still. Ken Thomas

The Truckie Who Loved Trains David Wilcox, 2016 **The Truckie who Loved Trains** Dan Machin, David Wilcox Arthur, 2013 From a one truck start in 1946 within 25 years Ken Thomas built TNT to be the largest transport company in Australia. This is his story. This is the story of an evolution. It covers the dramatic change in Australian transport over the twenty five years after World War Two. In that time so many important changes occurred. They include the sorting out of the railway gauge problems, the dieselisation of the railways, the Hughes and Vale road tax decision, the arrival of containers and roll on roll off shipping. Best of all the marriage of road and rail freight operations. These things did not happen by nature taking its course, they happened because driven men could see a better way. One of the leaders of these men was Ken Thomas

Love Goes Past Ursula Parrott, 1931

A Man Without Love, 2011-02-05 All Bill wanted out of life was to be a normal bloke and part of someone's life, preferably a female's life. On first glance a reader might think this book is just another painful and sad love story but that is not so. Bill was a walking live example of avoidable human disaster and bad luck, a sort of modern day Medusa with an unforeseen hilarious side. The love part of this story was much more challenging especially for all those helpful mates in the

bush who had made a vow to help resolve Bill's biggest problem finding a woman to love him. Then there are all the other interesting stories that just sort of happened around Bill. Remember these are all true stories. Please do enjoy the reading as I did in writing them.

Alien Encounter Terry Parker, 2019-09-04 Have you ever looked at the night sky with its millions of stars and wondered whether there might be something living near one of those stars and looking back? When an exploratory craft from the planet Gaia picks up a weak undecipherable signal from a distant backwater planet, the crew decides to take a risk and check it out. What they discover is Earth, a planet populated by the first sentient beings any Gaians have encountered beyond themselves. Even more intriguing, these beings may possess something missing from among the Gaians. The crew makes several attempts to contact and interact with humans and eventually they find themselves approaching a secret US base located near Alice Springs. The Gaians struggle to work with these beings so unlike themselves, driven by emotion rather than reason and logic, but doing so may be their only hope of returning home. In this science fiction novel, a crew of explorers from the planet Gaia comes to Earth where their first contact with humanity demonstrates the power of emotion.
