My Book of Bible Poems Sandra R. Reynolds, 2014-09-16 My book was written with love each poem has a reason and each reason for me is personal Poetry becomes very private almost like reading someone's diary an open book that looks into the poet's heart No other way to write because each person goes away with his own interpretation Whereas The Bible has only one way to interpret it My book are my feelings not my interpretation of God's word I'll leave any and all interpretation alone Sometimes poetry turns people off maybe like me you were forced to read it in school I was not a lover of Shakespeare but I've grown to appreciate all kinds of literature I have my favorite poets Robert Frost Pablo Neruda and Khalil Gibran I enjoy reading and imitating their style of writing I keep trying to find the words to my masterpiece the sonnet that personifies love My illusive butterfly that flies from flower to flower it's an illusion

but keeps my mind active

Critiquing Social and Emotional Learning Clio Stearns, 2019-03-08 Social and Emotional Learning SEL has been steadily gaining traction in education but little attention has been paid to its underlying assumptions In Critiquing Social and Emotional Learning Psychodynamic and Cultural Perspectives Clio Stearns draws on qualitative classroom observations teacher interviews and analysis of prominent SEL program materials to offer a critique of SEL as a codified phenomenon Stearns questions undergirding presumptions about children teachers and SEL s interplay with cultural and educational trends Claiming that SEL participates in cultural demands for hegemonic positivity Stearns illustrates the dangers and undesirable demands of this impossible curricular regime In particular Stearns highlights how closeness and understanding in the classroom are repeatedly circumvented and how normative and necessary parts of life like negative affect and interpersonal conflict are disregarded In Stearns s view the educational community should not consider children s social and emotional worlds as fair domain for mastery or learning Instead we should consider social and emotional education as something without a predetermined endpoint requiring the joint and ongoing participation of teachers and students
