

The background of the cover is a photograph of a man and a woman in a romantic embrace. The man, on the left, has dark hair and a beard, and is wearing a light-colored t-shirt. He is holding the woman from behind. The woman, on the right, has long, dark, wavy hair and is wearing a light-colored, possibly wet, spaghetti-strap top. They are standing in a field of tall grass or reeds, with a body of water and a hazy horizon in the background. The entire image has a soft, romantic feel.

Talk on the Wild Side Lane Greene, 2018-11-06 Language is the most human invention Spontaneous unruly passionate and erratic it resists every attempt to discipline or regularize it a history celebrated here in all its irreverent glory Language is a wild thing It is vague and anarchic Style meaning and usage are continually on the move Throughout history for every mutation idiosyncrasy and ubiquitous mistake there have been countervailing rules pronouncements and systems making some attempt to bring language to heel From the utopian language builder to the stereotypical grammatical stickler to the programmer trying to teach a computer to translate Lane Greene takes the reader through a multi disciplinary survey of the many different ways in which we attempt to control language exploring the philosophies motivations and complications of each The result is a highly readable caper that covers history linguistics politics and grammar with the ease and humor of a dinner party anecdote Talk on the Wild Side is both a guide to the great debates and controversies of usage and a love letter to language itself Holding it together is Greene s infectious enthusiasm for his subject While you can walk away with the finer points of who says whom and the strange history of buxom schoolboys most of all it inspires awe in language itself for its elegance resourcefulness and power

On the Wild Side Martin Gardner, 2010-10-04 I have always been intrigued by fringe science writes Martin Gardner in the preface to this book perhaps for the same reason that I enjoy freak shows and circuses Pseudoscientists especially the extreme cranks are fascinating creatures for psychological study Moreover I have found that one of the best ways to learn something about any branch of science is to find out where its crackpots go wrong A unique combination of horse sense and drollery has made Martin Gardner the undisputed dean of the critics of pseudoscience This bountiful collection of essays and articles will be wholeheartedly greeted by Gardner s fans as well as by new readers This collection of articles many of which first appeared in the Skeptical Inquirer the New York Review of Books and Free Inquiry explores pseudoscience and strange religious beliefs with the author s trademark wit and verve Destined to be a classic of skeptical literature this book covers a wide range of topics including UFOs rainmaking ghosts the Big Bang ESP Oral Roberts as well as the early history of spiritualism and today s bizarre trance channeling cults

A Walk Through the Wild Side Ajit Chaudhuri, 2022-03-14 This is the story of the kidnapping of a Delhi-based management consultant by insurgents in the North East of India in the mid 1990s, told from the perspectives of the kidnappee, his wife in Delhi, and the commander of an insurgent group that has him in its captivity. It spans events from the 1960s onwards and takes the reader across India and its North East with occasional forays into Bangladesh, Myanmar, and British India's northwestern frontier. The story delves into questions of ethnicity, identity, nationalism, and sub-nationalism in the North East, explores their connection with insurgency, and describes the assumptions, compulsions, and motivations of the time. In the process, it introduces the India of the twentieth century and its North East to twenty-first-century Indians. **Living**

Law Sandro Chignola, 2024-07-12 This book offers a radical new understanding of law beyond the confines of its formalization by the state. The book takes off from the late work of Gilles Deleuze and Michel Foucault, for whom law and its institutions came to be liberated from an ideological perspective that had treated them as sterile instruments for the reproduction of domination. Engaging its continental history, it addresses the concept of law not merely as a command but as the result of a much more complex legal operation aimed at dynamically stabilizing the social relations of a community. The book thus sidesteps the usual legal-political focus on those from Hobbes to Schmitt who have contributed to the categorical scheme of the modern state and with it questions of political representation, sovereignty, the rigid distinction between public law and private law, and so on, as it pursues an alternative theoretical trajectory through Ravaillon, Tarde, and Hauriou. Politics, the book maintains, can no longer be treated simply through the state form. And relatedly, the law must be seen as a living law, a law that cannot be treated exclusively in formal terms but must be taken as a grammar capable of articulating a politics of process, relationality, and innovation. Reconceived as such, law can then circumvent the aporias that arise when society is viewed as a private company and the state seen as the bearer of the only possible means of formalizing its relationships. At the intersection of law and political theory, this book will speak to scholars and others with interests in both these areas, and especially those concerned with the limits of both conventional and critical approaches to law. **Bridging**

the Gap Between Conversation Analysis and Poetics Raymond F. Person, Jr., Robin Wooffitt, John P. Rae, 2021-12-30 This collection extends the conversation beginning with Gail Jefferson's seminal 1996 article 'On the Poetics of Ordinary Talk', linking the poetics of ordinary talk with the work of poets to bring together critical perspectives on new data from talk in interaction and applications of Jefferson's poetics to literary discourse. Bringing together contributions from Conversation Analysis and literary scholars, the book begins by analyzing the presentation which served as the genesis for Jefferson's

article to highlight the occurrence of poetics in institutional talk The first section then provides an in depth examination of case studies from Conversation Analysis which draw on new data from naturally occurring discourse The second half explores literary poetics as a form of institutional talk emerging from the poetics of ordinary talk offering new possibilities for interpreting work in classics biblical studies folklore studies and contemporary literature Each chapter engages in a discussion of Jefferson s article toward reinforcing the relationships between the two disciplines and indicating a way forward for interdisciplinary scholarship The collection highlights the enduring influence of Jefferson s poetics to our understanding of language both talk in interaction and literary discourse making this book of particular interest to students and researchers in Conversation Analysis literary studies stylistics and pragmatics *Saul Bass Jan-Christopher*
