Pentecostals** Jelle Creemers,2015-09-24 The last two decades have witnessed the growing participation in theological
dialogues of non institutional free church movements This poses a serious challenge to 21st century ecumenism since
ecclesial realities and internal diversity of these movements impede fruitful dialogue in the classical manner The present
volume addresses fundamental aspects of this challenge by a critical study of an exemplary case of such dialogues the
International Roman Catholic Classical Pentecostal Dialogue 1972 2007 This unique study builds both on primary archival
sources and on earlier research on the IRCCPD After providing an ecumenical profile of the Classical Pentecostal dialogue
partner Creemers demonstrates how fair representation of the Classical Pentecostal movement has been pursued in the
course of the dialogue Next he gives attention to the ecumenical method of the IRCCPD First the development of a dialogue
method hinging on hard questions is traced which has allowed a balanced theological exchange between the dialogue
partners Regarding theological method it is demonstrated that both partners showed a willingness to experiment together by
integrating sources of theological knowledge typically distrusted in their own traditions In conclusion the analyses are
integrated in an overview of challenges and opportunities for dialogue with the Classical Pentecostal movement in the
context of ongoing discussions on ecumenical method *Nutrient Intakes* ,1984 Abstract Three day nutrient intake data 157
