Historical Afterlives of Jesus Gregory C. Jenks, 2023-01-24 This collection of essays explores the impact of Jesus within and beyond Christianity including his many afterlives in literature and the arts social justice and world religions during the past two thousand years and especially in the present global context This first volume focuses on selected historical afterlives of Jesus including the Pantokrator of Byzantium and the Aryan Jesus of Nazi Germany This collection is not an exercise in Christian apologetics nor is it an interfaith project except in the sense that many of the contributors are from a Christian context of some kind while others are from other contexts The contributors include scholars in relevant fields as well as religious practitioners reflecting on Jesus in their own cultural and religious settings While the essays are original work that is grounded in critical scholarship reflective practice or both they are expressed in nontechnical language so the information is accessible to intelligent nonspecialists **Jewish Exiles and European Thought during the Third Reich** David

States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies, 2004 **Nightmare Envy and Other Stories** George Blaustein, 2018-01-05 What has it meant to be an Americanist What did it mean to be an Americanist through fascism war and occupation Nightmare Envy and Other Stories is a study of Americanist writing and institutions in the 20th century Four chapters trace four routes through the mid twentieth century The first chapter is the hidden history of American Studies in the United States Europe and Japan The second is the strange career of national character in anthropology The third is a contest between military occupation and cultural diplomacy in Europe The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F O Matthiessen carried a canon of radical literature across the Iron Curtain Each chapter culminates in the postwar period when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways

Many of our modern myths of the United States and Europe were formed in this moment. Some saw the United States assume the mantle of cultural redeemer. Others saw a stereotypical America rich in civilization but poor in culture overtake a stereotypical Europe rich in culture and equally rich in disaster. Drawing on American and European archives, the book weaves cultural, intellectual, and diplomatic history with portraits of Matthiessen, Margaret Mead, Ruth Benedict, David Riesman, Alfred Kazin, and Ralph Ellison. It excavates the history of the Salzburg Seminar in American Civilization, where displaced persons, former Nazis, budding Communists, and glad-handing Americans met on the common ground of American culture. Others found keys to their own contexts in American books: reading Moby-Dick in the ruins of Nightmare, Envy, and Other Stories; chronicling American encounters with European disaster; European encounters with American fiction; and the chasms over which culture had to reach.

Crabtracks, 2021-12-28. The essays in this collection celebrate the signal achievement of Dieter Riemenschneider in helping to found and consolidate the study of postcolonial anglophone literatures in Germany and Europe. As well as poems, a short story, drawings of the Indian scene, the first and abiding focus of this scholar's work, and letters of reminiscence, one quite grave, there are revealing contributions of a literary-historical nature on the establishment of anglophone, especially African, literatures as an academic discipline within Germany, the UK, and Northern Europe, generally, as well as a group of searching reflections on such topics of postcolonial import as globalization and the applicability of models to the literature of the indigene in Canada and Australia. The largest section is devoted to individual topics, each treatment implicitly keyed to approaches to the teaching of New Literatures texts. Writers covered include Anita Desai, landscape and memory, Salman Rushdie, painting in *The Moor's Last Sign*, Charlotte Brontë, imperial discourse in *Jane Eyre*, Derek Walcott, Omeros, and cultural cohabitation, and Witi Ihimaera's rewriting of Katherine Mansfield. Topics dealt with include music and radio in West Africa, the African literary hit parade, the New Zealand prose poem, Canadian and Australian war fiction, the Middle Passage in the American and Caribbean novel, Paul Theroux's uneasy relations with V.S. Naipaul, and the colonial discourse of illness and recuperation. The volume closes with Dieter Riemenschneider's very first and most recent critical essays: the one, a classic on Mulk Raj Anand; the other, a challenging and doubtless controversial thesis on postcolonial minority writing. A select bibliography of Riemenschneider's work, books, edited publications, journal articles, and book contributions, reviews, and broadcasts rounds off this substantial collection.

Conversations with Dostoevsky, George Pattison, 2024. *Conversations with Dostoevsky* presents a series of fictional conversations between George Pattison and Russian novelist Fyodor Dostoevsky. The volume also includes commentaries which contextualize the issues discussed in the conversations.

The Nazi Study of India and Indian Anti-Colonialism, Baijayanti Roy, 2024-09-09. *The Nazi Study of India and Indian Anti-Colonialism* is the first detailed and critical study of the intellectual

and political connections that existed between some German scholars specializing on India non academic India experts Indian anti colonialists and various organs of the Nazi state It explores the ways in which different knowledge discourses pertaining to India particularly its colonization and the anti colonial movement were used by these individuals for a number of German organisations to fulfil the demands of Nazi politics This monograph also inspects the links between the knowledge providers and embodiments of National Socialist politics like the Nazi party and its affiliates In this study Baijayanti Roy aims to ascertain whether such political engagements were actually more rewarding for the scholars than their practical services to the state in the form of strategic deployment of their knowledge of India The Nazi Study of India and Indian Anti Colonialism offers case studies of four organisations which incorporated such complicated entanglements of knowledge and power the India Institute of the Deutsche Akademie in Munich the Special Department India of the German Foreign Ministry the Seminar for Oriental languages and its successor institutions at the University of Berlin and the Indian Legion of the German Army The knowledge networks underlying these organisations were dominated by German Indologists but non specialist knowledge providers both German and Indian were also included The Nazi regime expected all scholars and intellectuals to engage in Kulturpolitik cultural politics which entailed propagating the glories of the Reich and its supreme leader as well as collecting politically valuable knowledge within and outside Germany For the four organizations concerned this meant conducting pro German and from around 1938 anti British propaganda aimed at Indians Loosely following an analogy provided by Herbert Mehrtens in the context of natural sciences this monograph posits that there were patterns of collaboration between the knowledge providers and the representatives of the Nazi regime At the core of these patterns was to borrow Mitchell Ash s theory an exchange of resources and capital in which scholars and experts offered their knowledge of Indian languages history and culture to authorities like the Foreign Ministry the SS and the Army In return they received increased professional opportunities financial remuneration or in some cases increased power and influence
