first Black African author to win the Nobel Prize for Literature 1986 and his oeuvre has become seminal to postcolonial literature The frequent references to Greece and Rome that appear across Soyinka's writings most explicitly in his 1973 play The Bacchae of Euripides A Communion Rite have often received short shrift in scholarship on the author At best these references have been understood as elements of Soyinka's prodigiously inclusive humanism At worst Soyinka's critics argue that the invocations of a Graeco Roman past testify to the neocolonial cultural affinities that make Soyinka a problematic figure in postcolonial literary history Adam Lecznar challenges these readings arguing that Soyinka's authorial outlook is informed by a hybrid form of classicism in which he aligns the legacy of Greece and Rome with the African cultural heritage to form a narrative of literary and cultural value that looks beyond the ancient Mediterranean This book turns a spotlight on how Soyinka's appeals to Greece and Rome inform his reflections on Africa's ancient past Yoruba belief and the modern significance of tragedy Lecznar contends that Soyinka's notion of classicism is not solely dependent on the memory of the Graeco Roman past Rather it draws innovatively on a global cultural heritage to advance revolutionary and futural narratives of history and identity Bookishness Jessica Pressman, 2020-12-01 Twenty first century culture is obsessed with books In a time when many voices have joined to predict the death of print books continue to resurface in new and unexpected ways From the proliferation of shelfies to Jane Austen themed leggings and from decorative pillows printed with beloved book covers to bookwork sculptures exhibited in prestigious collections books are everywhere and are not just for reading Writers have caught up with this trend many contemporary novels depict books as central characters or fetishize paper and print thematically and formally In Bookishness Jessica Pressman examines the new status of the book as object and symbol She explores the rise of bookishness as an identity and an aesthetic strategy that proliferates from store window d cor to experimental writing Ranging from literature to kitsch objects stop motion animation films to book design Pressman considers the multivalent meanings of books in contemporary culture Books can represent shelter from or a weapon against the dangers of the digital they can act as memorials and express a sense of loss Examining the works of writers such as Jonathan Safran Foer Jennifer Egan Mark Z Danielewski and Leanne Shapton Pressman illuminates the status of the book as a fetish object and its significance for understanding contemporary fakery Bringing together media studies book history and literary criticism Bookishness explains how books still give meaning to our lives in a digital age Catalogue of the **Library of the Late Charles I. Criticism Ben Knights, 2017-07-01 This book argues that the history of English Studies is embedded in its classroom practice and its practice in its history Some of its foundational struggles are still being lived out today English is characterized as a boundary subject active in dialogue across a number of imagined borders especially those between academic and non specialized readerships While the subject discipline maintains strong pedagogic principles many of its principles and values are obscure or even invisible to students and potential students. The book cross fertilizes the study of English as a subject with the analysis of selected literary texts read as pedagogic parables It concludes with a call for a return to the subject s The Gatekeeper Terry Eagleton, 2013-09-10 Oxford professor best selling author preeminent literary critic playwright screenwriter and novelist Terry Eagleton knows all about the claims of competing worlds One of his earliest roles growing up Catholic in Protestant England was as the gatekeeper the altar boy who at reverend mother's nod literally closed the door on young women taking the veil separating the sanctity of the convent from earthly temptations and family obligations Often scathingly funny frequently tender and always completely engaging The Gatekeeper is Eagleton's memoirs his deep etched portraits of those who influenced him either by example or by contrast his father headmasters priests and Cambridge dons He was a shy bookish asthmatic boy keenly aware of social inferiority yet determined to make his intellectual way Our aim in life he writes of his working class Irish immigrant descended family was to have the words We Were No Trouble inscribed on our tombstones But Eagleton knew trouble was the point of it all Opening doors sometimes meant rattling the knobs At both Cambridge and Oxford he gravitated toward dialectics and mavericks countering braying effeteness with withering if dogmatic dissections of the class system The Gatekeeper mixes the soberly serious with the downright hilarious skewer sharp satire with unashamed fondness the personal with the political Most of it all it reveals a young man learning to reconcile differences and oppositions a double edged portrait of the intellectual as a young man

The Rhetoric of Literary Communication Virginie Iché, Sandrine Sorlin, 2022-01-31 Building on the notion of fiction as communicative act this collection brings together an interdisciplinary range of scholars to examine the
