These European travelers saw non Europeans neither as savages nor as projections of colonial fantasies Instead the explorers accumulated a rich storehouse of perceptions through negotiations with patrons at home collaborators abroad salon philosophers and missionary rivals Liebersohn illuminates the transformative nature of human connections He examines the expectations these servants of empire brought to the peoples they encountered and acknowledges the effects of Oceanian behaviors including unexpected notions of sexuality on the Europeans Equally important he details the reception of these travelers upon their return home An unforgettable voyage filled with delightful characters dramatic encounters and rich cultural details The Travelers World heralds a moment of intellectual preparation for the modern global era We now travel effortlessly to distant places but the questions about perception truth and knowledge that these intercontinental mediators faced still resonate

unearthed from the famous Dunhuang library cave in Western China *The King's Road* paints a detailed picture of the intricate network of trans Eurasian transportation and communication routes that was established between 850 and 1000 CE. By exploring the motivations of the kings who dispatched envoys along the Silk Road and describing the transformative social and economic effects of their journeys the book reveals the inner workings of an interstate network distinct from the Sino-centric tributary system. In shifting the narrative of the Silk Road from the transport of commodities to the exchange of diplomatic gifts and personnel *The King's Road* puts the history of Eastern Eurasia in a new light.
