Americans responded to the deadly terrorist attacks on September 11 2001 with an outpouring of patriotism though all were not united in their expression A war based patriotism inspired millions of Americans to wave the flag and support a brutal War on Terror in Afghanistan and Iraq while many other Americans demanded an empathic patriotism that would bear witness to the death and suffering surrounding the attack Twenty years later the war still simmers and both forms of patriotism continue to shape historical understandings of 9/11's legacy and the political life of the nation John Bodnar's compelling history shifts the focus on America's War on Terror from the battlefield to the arena of political and cultural conflict revealing how fierce debates over the war are inseparable from debates about the meaning of patriotism itself Bodnar probes how honor brutality trauma and suffering have become highly contested in commemorations congressional correspondence films soldier memoirs and works of art He concludes that Americans continue to be deeply divided over the War on Terror and how to define the terms of their allegiance a fissure that has deepened as American politics has become dangerously polarized over the first two decades of this new century **The Girl at the Baggage Claim** Gish

The Persuaders Anand Giridharadas, 2023-10-17 NEW YORK TIMES BESTSELLER An insider account of activists politicians educators and everyday citizens working to change minds bridge divisions and fight for democracy from disinformation fighters to a leader of Black Lives Matter to Bernie Sanders and Alexandria Ocasio Cortez and more by the best selling author of *Winners Take All* and award winning former New York Times columnist Anand Giridharadas shows the way we get real progressive change in America by refusing to write others off building more welcoming movements and rededicating ourselves to the work of changing minds Robert B Reich best selling author of *The System* The lifeblood of any free society is persuasion changing other people's minds in order to change things But America is suffering a crisis of faith in persuasion that is putting its democracy and the planet itself at risk Americans increasingly write one another off instead of seeking to win one another over Debates are framed in moralistic terms with enemies battling the righteous Movements for justice build barriers to entry instead of on ramps Political parties focus on mobilizing the faithful rather than wooing the skeptical And leaders who seek to forge coalitions are labeled sellouts In *The Persuaders* Anand Giridharadas takes us inside these movements and battles seeking out the dissenters who continue to champion persuasion in an age of polarization We meet a leader of Black Lives Matter a trailblazer in the feminist resistance to Trumpism white parents at a seminar on raising adopted children of color Bernie Sanders and Alexandria Ocasio Cortez a team of door knockers with an uncanny formula for changing minds on immigration an ex cult member turned QAnon deprogrammer and hovering menacingly offstage Russian operatives clandestinely stoking Americans fatalism about one another As the book's subjects grapple with how to call out threats and injustices while calling in those who don't agree with them but just might one day they point a way to healing and changing a fracturing country

Winners Take All Anand Giridharadas, 2019-10-01 NEW YORK TIMES BESTSELLER The groundbreaking investigation of how the global elite's efforts to change the world preserve the status quo and obscure their role in causing the problems they later seek to solve An essential read for understanding some of the egregious abuses of power that dominate today's news Impassioned

Entertaining reading The Washington Post Anand Giridharadas takes us into the inner sanctums of a new gilded age where the rich and powerful fight for equality and justice any way they can except ways that threaten the social order and their position atop it They rebrand themselves as saviors of the poor they lavishly reward thought leaders who redefine change in ways that preserve the status quo and they constantly seek to do more good but never less harm Giridharadas asks hard questions Why for example should our gravest problems be solved by the unelected upper crust instead of the public institutions it erodes by lobbying and dodging taxes His groundbreaking investigation has already forced a great sorely needed reckoning among the world's wealthiest and those they hover above and it points toward an answer Rather than rely on scraps from the winners we must take on the grueling democratic work of building more robust egalitarian institutions and truly changing the world a call to action for elites and everyday citizens alike
