## **The Turks Today Andrew Mango:**

**The Turks Today** Andrew Mango, 2011-06-23 Eighty years have passed since Mustafa Kemal Atatürk founded the Turkish Republic out of the ruins of the Ottoman Empire and set it on the path of modernisation. He was determined that his country should be accepted as a member of the family of civilised nations. Today Turkey is a rapidly developing country, an emergent market and a medium sized regional power with the second strongest army in NATO. It is an open country which attracts millions of tourists, thousands of foreign businessmen and hundreds of researchers. They enjoy Turkish hospitality and experience its rich landscape and history but many find it hard to form an overall picture of the country. In this sequel to his acclaimed biography of Atatürk, Andrew Mango provides such an overall portrait, tracing the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. *The Turks Today* interprets the latest academic research for a broader audience, making this highly readable book the authoritative work on modern Turkey.

**Atatürk** Andrew Mango, 2011-06-23 This biography of Atatürk aims to strip away the myth to show the complexities of the man beneath. Born plain Mustafa in Ottoman Salonica in 1881, he trained as an army officer but was virtually unknown until 1919 when he took the lead in thwarting the victorious Allies' plan to partition the Turkish core of the Ottoman Empire. He divided the Allies, defeated the last Sultan and secured the territory of the Turkish national state, becoming the first president of the new republic in 1923. He imposed coherence, order and modernity and in the process created his own legend and his own cult.

**Turkey: A Short History (A Short History)** Norman Stone, 2014-06-17 Arresting Stone's *Turkey* breaks the popular mould and introduces its readers to a place beyond their presumptions. *The Sunday Times* In *Turkey: A Short History*, the celebrated historian Norman Stone deftly conducts the reader through the fascinating and complex story of Turkey's past from the arrival of the Seljuks in Anatolia in the eleventh century to the modern republic applying for EU membership in the twenty-first. It is an account of epic proportions featuring rapacious leaders such as Genghis Khan and Tamerlane, the glories of Sultan Süleyman the Magnificent and Kemal Atatürk, the reforming genius and founder of modern Turkey. For six hundred years Turkey was at the heart of the Ottoman Empire, a superpower that brought Islam to the gates of Vienna and stretched to North Africa, the Persian Gulf and the river Volga. Stone examines the reasons for the astonishing rise and the long decline of this world empire and how for its last hundred years it became the center of the Eastern Question as the Great Powers argued over a regime in its death throes. Then, as now, the position of Turkey, a country balanced between two continents, provoked passionate debate. Stone concludes the book with a trenchant examination of the Turkish republic created in the aftermath of the First World War, where East and West, religion and secularism, and tradition and modernization are vibrant and sometimes conflicting elements of national identity.
