The Political Force of Musical Beauty Barry Shank, 2014-03-17 In *The Political Force of Musical Beauty* Barry Shank shows how musical acts and performances generate their own aesthetic and political force creating however fleetingly a shared sense of the world among otherwise diverse listeners Rather than focusing on the ways in which music enables the circulation of political messages he argues that communities grounded in the act and experience of listening can give rise to new political ideas and expression Analyzing a wide range of beautiful music within popular and avant garde genres including the Japanese traditions in the music of Takemitsu Toru and Yoko Ono the drone of the Velvet Underground and the insistence of hardcore punk and Riot grrrl post punk Shank finds that when it fulfills the promise of combining sonic and lyrical differences into a cohesive whole musical beauty has the power to reorganize the basis of social relations and produce communities that recognize meaningful difference

**The Rock Canon** Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon In essence the canon comprises the works and artists that are

widely accepted to be the greatest in their field Yet such an apparently simple construct embodies a complicated web of values and mechanisms Canons are also inherently elitist however Carys Wyn Jones here explores the emerging reflections of values terms and mechanisms from the canons of Western literature and classical music in the reception of rock music Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums Bob Dylan s Highway 61 Revisited The Beach Boys Pet Sounds The Beatles Revolver The Velvet Underground s The Velvet Underground Nico Van Morrison s Astral Weeks Marvin Gaye s What s Going On The Rolling Stones Exile on Main St Patti Smith s Horses The Sex Pistols Never Mind the Bollocks Here s the Sex Pistols and Nirvana s Nevermind Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now negotiate a far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries

**Feedback** David Joselit,2010-02-26 In a world where politics is conducted through images the tools of art history can be used to challenge the privatized antidemocratic sphere of American television American television embodies a paradox it is a privately owned and operated public communications network that most citizens are unable to participate in except as passive speculators Television creates an image of community while preventing the formation of actual social ties because behind its simulated exchange of opinions lies a highly centralized corporate structure that is profoundly antidemocratic In Feedback David Joselit describes the privatized public sphere of television and recounts the tactics developed by artists and media activists in the 1960s and 1970s to break open its closed circuit The figures whose work Joselit examines among them Nam June Paik Dan Graham Joan Jonas Abbie Hoffman Andy Warhol and Melvin Van Peebles staged political interventions within television s closed circuit Joselit identifies three kinds of image events feedback which can be both disabling noise and rational response as when Abbie Hoffman hijacked television time for the Yippies with flamboyant stunts directed to the media the image virus which proliferates parasitically invading transforming and even blocking systems as in Nam June Paik s synthesized videotapes and installations and the avatar a quasi fictional form of identity available to anyone which can function as a political actor as in Melvin Van Peebles s invention of Sweet Sweetback an African American hero who appealed to a broad audience and influenced styles of Black Power activism These strategies writes Joselit remain valuable today in a world where the overlapping information circuits of television and the Internet offer different opportunities for democratic participation In Feedback Joselit analyzes such midcentury image events using the procedures and categories of art history The trope of figure ground reversal for instance is used to assess acts of representation in a variety of media including the medium of politics In a televisual world Joselit argues where democracy is conducted through images art history has the capacity to become a political science
