SCORING THE EXAM The multiple choice section of the exam is scored by crediting each correct answer with one point and deducting one fourth of a point for each incorrect answer You will neither receive a credit nor suffer a deduction for unanswered questions The free response essays are graded by instructors and professors from across the country who come together each June for a week of non stop AP essay grading Each essay booklet is read and scored by several graders Each

grader provides a score for the individual essays The DBQ is scored on a scale from 0 to 15 0 being the lowest and 15 the highest Each topic based essay receives a score from 0 to 9 These scores are concealed so that each grader is unaware of the previous graders assessments When the essays have been graded completely the scores are averaged one score for each essay so that the free response section generates three scores The total weight of the free response section is 50 percent of the total score Your work in the multiple choice section counts for the other 50 percent Each year grades fluctuate slightly because the grading scale is adjusted to take into account the performance of the total AP U S History test taker population When used with the corresponding chart the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual AP U S History exam

SCORING THE MULTIPLE CHOICE SECTION For the multiple choice section use this formula to calculate your raw score $\text{Number right} - \text{number wrong} \times 1.4$ raw score round to the nearest whole number

SCORING THE FREE RESPONSE SECTION For the free response section use this formula to calculate your raw score DBQ Essay 1 Essay 2 raw score round to the nearest whole number You may want to give your essays three different grades such as a 13 10 and an 8 and then calculate your score three ways as if you did

Foreign Policy and Congress Marie T. Henehan, 2010-06-02 In the traditional view of foreign policy making in the United States the President is considered the primary authority and Congress is seen as playing a subsidiary role Marie T Henehan looks at the effects of events in the international system on both the content of foreign policy and what actions Congress takes on foreign policy Henehan argues that the only way to understand the way congressional behavior varies over time is by looking at the rise and resolution of critical issues in foreign policy which in turn have their origin in the international system When a critical foreign policy issue arises congressional activity and attempts to influence foreign policy increase Once the debate is resolved and one side wins a consensus emerges and Congress settles into a more passive role Using a data set consisting of all roll call votes on foreign policy issues taken by the Senate from 1897 to 1984 to generate indicators of Congressional behavior together with the rise and fall of critical issues in international relations Henehan is able to develop a more nuanced understanding of Congress's role in foreign policy making over time In recent years political scientists have begun to consider the impact of the international system on domestic policy Part of the difficulty of some of this work as well as work on Congress's role in foreign policy is that it has been limited in terms of time and the number of events the analysis considered depending on case studies This book offers a systematic consideration of the effects of international events on domestic politics crossing many different kinds of international activity and provides a unique longitudinal view of Congressional action on foreign policy This book will be of interest to scholars of international relations American foreign policy making and Congress Marie T Henehan is Assistant Professor of Political Science Vanderbilt University
