The Vietnam War Years Chapter 22

Cecelia H. Brannon

The Vietnam War Years Chapter 22:

The Vietnamese War David Elliott, 2016-04-15 A monumental work of research and analysis this is a history of the Vietnam War in a single province of the Mekong Delta over the period 1930-1975. More precisely it is a study of the Vietnamese dimension of the Vietnam War focusing on the revolutionary movement that became popularly known as the Viet Cong. There are several distinctive features to this study: 1 it provides an explanation for the paradox of why the revolutionary movement was so successful during the war but unable to meet the challenges of postwar developments; 2 it challenges the dominant theme of contemporary political analysis which assumes that people are rational actors responding to events with careful calculations of self interest; 3 it closely examines province level documentation that casts light on a number of important historical controversies about the war. No other history of the Vietnam War has drawn on such a depth of documentation especially firsthand accounts that allow the Vietnamese participants to speak directly to us. Voices from the Vietnam War Xiaobing Li, 2010-06-11 The Vietnam War's influence on politics, foreign policy and subsequent military campaigns is the center of much debate and analysis. But the impact on veterans across the globe as well as the war's effects on individual lives and communities is a largely neglected issue. As a consequence of cultural and legal barriers the oral histories of the Vietnam War currently available in English are predictably one-sided, providing limited insight into the inner workings of the Communist nations that participated in the war. Furthermore many of these accounts focus on combat experiences rather than the backgrounds, belief systems and social experiences of interviewees, resulting in an incomplete historiography of the war. Chinese native Xiaobing Li corrects this oversight in *Voices from the Vietnam War*. Stories from American, Asian and Russian Veterans. Li spent seven years gathering hundreds of personal accounts from survivors of the war, accounts that span continents, nationalities and political affiliations. The twenty-two intimate stories in the book feature the experiences of American, Chinese, Russian, Korean and North and South Vietnamese veterans representing the views of both anti-Communist and Communist participants, including Chinese officers of the PLA, a Russian missile training instructor and a KGB spy. These narratives humanize and contextualize the war's events while shedding light on aspects of the war previously unknown to Western scholars. Providing fresh perspectives on a long-discussed topic, *Voices from the Vietnam War* offers a thorough and unique understanding of America's longest war.

History's Greatest Wars Joseph Cummins, 2011-05 Centuries of warfare that changed the world are captured in *History's Greatest Wars*. This book acts as a perfect primer for novices while offering seasoned history readers new perspectives on many famous and some not so well-known conflicts. Each chapter includes a quick reference summary, a timeline, an overview of the war, essays on its principal leaders, a series of short, often offbeat features on aspects of the conflict and a detailed account of a pivotal battle.

Progressive Conservatism F.H. Buckley, 2022-07-12 The Republican Party must return to its roots as a progressive conservative party that defends the American Dream the idea that whoever you are you can get ahead and know that your children will have it better than you did It must show how the Democrats have become the party of inequality and immobility and that they created what structural racism exists through their unjust education immigration and job killing policies

Republicans must seek to drain the swamp by limiting the clout of lobbyists and interest groups They must also be nationalists and as American nationalism is defined by the liberal nationalism of our founders the party must reject the illiberalism of extremists on the Left and Right As progressives Republicans must also recognize nationalism s leftward gravitational force and the way in which it demands that the party serve the common good through policies that protect the less fortunate among our countrymen At a time when the Left asks us to scorn our country Republicans must also be the conservative party that defends our families the nobility of American ideals and the founders republican virtues By championing these policies the Republicans will retain the new voters Trump brought to the GOP as well as those who left the party because of him And as progressive conservatives the GOP will become America s natural governing party
