THE POLICE OFFICER'S GUIDE TO OPERATING AND SURVIVING IN LOW-LIGHT AND NO-LIGHT CONDITIONS Tony L. Jones, 2002-01-01 The majority of crimes occur during the hours of darkness and fully two thirds of all shooting incidents in which police officers on duty are killed take place during hours of diminished light The goal of this unique book is to increase officers awareness that training in low light and no light conditions is necessary in order for them to prevail in such situations to help facilitate correct decision making under these conditions and to help them understand the use of a myriad of illumination tools available for professional use today Major topics include 1 dim light and no light doctrine including navigation techniques threat location threat acquisition and threat identification 2 flashlight doctrine including many examples of engaging a threat using a flashlight 3 low light weapon sighting systems 4 techniques used for signalling during dim light and no light conditions and 5 illumination technologies supporting tactical and emergency operations including infrared systems thermal imagers night vision systems strobe lights and lasers Through the use of the techniques described throughout this unique and comprehensive book the skill professionalism and ability of police officers to operate and survive in dim light no light and artificial light conditions will be enhanced **Organic Chemistry in Action** F. Serratosa, J.

Xicart, 1996-05-09 The first edition of this book was welcomed with great enthusiasm by teachers and students It therefore seemed opportune to publish a second revised updated and extended edition Unfortunately Professor Flix Serratosa died before he could complete this task Some new material has been added the more significant changes being The book has been restructured into two well differentiated sections Part A dealing with conventional organic synthesis and Part B devoted exclusively to computer assisted organic synthesis and based on the former Chapter 11 and Appendices 2 3 and 4 of the first edition As decided in advance Part B was to be the sole responsibility of Dr Josep Xicart who prepared the first versions of the CHAOS Computerisation and Heuristics Applied to Organic Synthesis program under the direction of Professor Serratosa
