Description

Facing her future as a single mother, psychic Realtor Melanie Middleton is determined to be strong and leave her past with writer Jack Trenholm behind her. But history has a tendency of catching up with Melanie, whether she likes it or not.â€ Melanie is only going through the motions of living since refusing Jack's marriage proposal. She misses him desperately, but her broken heart is the least of her problems. Despite an insistence that she can raise their child alone, Melanie is completely unprepared for motherhood, and she struggles to complete renovations on her house on Tradd Street before the baby arrives. When Melanie is roused one night by the sound of a ghostly infant crying, she chooses to ignore it. She simply does not have the energy to deal with one more crisis. That is, until the remains of a newborn buried in an old christening gown are found hidden in the foundation of her house. As the hauntings on Tradd Street slowly become more violent, Melanie decides to find out what caused the baby's untimely death, uncovering the love, loss, and betrayal that color the house's history and threaten her claim of ownership. But can she seek Jack's help without risking her heart? For in revealing the secrets of the past, Melanie also awakens the malevolent presence that has tried to keep the truth hidden for decades.â€

George Galphin and the Transformation of the Georgia-South Carolina Backcountry Michael P. Morris,2014-12-05 The focus of this work is a reconstruction of the life and career of an Ulster Scot fur trader George Galphin pronounced Golfin who immigrated to South Carolina in the colonial period The thesis of this work is that his life and career helped to shape the history of the backcountry of Georgia and South Carolina in three distinct ways First his support of a for profit Indian trade as opposed to a for stability trade shaped Anglo Indian relations between frontier settlers and their Indian neighbors Ultimately men like Galphin helped the United States move away from the British policy towards Native Americans in favor of a uniquely American policy which ran the gamut from exploitation to land seizures and finally toward Indian Removal itself The book involves a look at the histories of the Muskogee Creeks and Cherokees who were his clients and has a heavy Native American component Galphin s second major influence on the Southeast came with the creation of the Ulster Scot communities he sponsored in both South Carolina and Georgia The relocation plans catered strictly to the Scots Irish Protestants and located them in danger zones between coastal settlements of Anglo Saxon British settlers and the Indian frontiers of the two colonies Galphin s third major influence came during the American Revolution when he was appointed as a Patriot Indian Commissioner fighting to control the southeastern tribes and keep them out of the war In that role he made his contribution as did so many others that helped secure a Patriot victory This part of his story would be of note to an audience interested in the American Revolution in the South from the perspective of the backcountry Finally his family life included the creation of a large multi racial family which helped establish the Creole society of the Eastern Georgia Western South Carolina His spouses and children included Caucasians Native Americans and African

Americans Two of Galphin's daughters were his slaves until his death

London Booksellers and American Customers James Raven, 2002 In 1994 James Raven encountered a letterbook from the Charleston Library Society detailing the ordering processing and shipping of texts from London booksellers to their American customers The 120 letters covering the period 1758-1811 provided unique material for understanding the business of London booksellers for whom very little correspondence has survived and Raven decided to publish an annotated edition of the letters The letterbook reproduced in its entirety forms an appendix to the present volume but Raven's study has blossomed from a relatively narrow examination of booksellers and their customers to a larger exploration of the role of books and institutions such as the Library Society in the formation of elite cultural identity on the fringes of empire As a result this meticulously researched book has much to offer scholars of gentry culture and community in the eighteenth century British Atlantic world as well as historians of the book
