book Henry Yeung puts Geography back into the driver's seat of new theory development. Foregrounding mid-range theories and mechanism-based explanations, he offers a pragmatic approach that has the capacity to shape the wider social sciences for years to come. The timing of this intervention is pitch perfect as scholars search for ways to understand and intervene in an increasingly distrustful and polarized world.

KATHARYNE MITCHELL, Distinguished Professor, University of California Santa Cruz, USA

In *Theory and Explanation in Geography*, Yeung presents us with a rare thing: an argument for geographical theory with forms of causal explanation at its heart. The book is both modest and ambitious. Modest in its insistence on mid-level theory without a call for some new turn or advocacy for any particular approach. Ambitious in its insistence that existing theoretical traditions are inadequate or incomplete insofar as they lack causal explanatory power. Geographers will be inspired and/or infuriated by Yeung's arguments in this provocative and cogently argued call to theoretical arms for many years to come.

Tim Cresswell-Ogilvie, Professor of Geography, University of Edinburgh, UK

Critical human geography possesses a distinctive theory culture: pluralist, creative, distributed, restless, contested, prone to turning wary of orthodoxies and fixed positions. In this original and provocative contribution, the leading economic geographer Henry Yeung steps out beyond his home turf to engage styles and practices of theorizing across this diverse field, carving out a new remit and rubric for middle-range theorizing.

JAMIE PECK, Canadian Research Chair and Distinguished University Scholar, University of British Columbia, Canada

Grounded in a generous reading of a multitude of critical approaches in human geography and their diverse conceptions of theory, *Theory and Explanation in Geography* draws upon cutting-edge debates on the mechanism-based approach to theory and explanation in analytical sociology, political science, and the philosophy of social sciences to inform current and future geographical thinking on theory. This consolidated conceptual work represents an extension and much further development of the author's well-cited works on relational geography, critical realism, and causal explanation process-based methodology, globalization, and the theory of global production networks and theorizing back and situated knowledges that were published in leading journals in Geography. The work has several chapters that identify new directions for Geography's current and future engagement with the wider social sciences and relevant research agendas in geographical thought. Its main chapters provide the necessary conceptual toolkits for mobilizing such an expanding research program in the 2020s and beyond. Compared to typical texts on geographical thought, this book is less retrospective and historical and more prospective in nature. Detailing why and how mid-range explanatory theories can be better developed through causal mechanisms and relational thinking that have been revitalized in the social sciences, *Theory and Explanation in Geography* is an essential read for academics, geographers, and scholars seeking unique perspective on an important facet of the field.

Handbook of American Public Administration Edmund C. Stazyk, H. George Frederickson, 2018-10-26

Currently, public administration as art and science ponders a challenging and uncertain future. Thus, no better time exists to take stock and ponder the practical and theoretical value of its topical coverage to date. Stazyk and Frederickson have assembled an

eclectic and impressive group of senior and junior scholars to join them in this intellectual exercise Collectively the contributors offer a stiletto like dissection of where and how the field's energy has been expended what knowledge it has produced what its limitations are and where future energies might best be expended Kudos to all Robert F Durant American University US This forward thinking Handbook draws on the expertise of established and emerging scholars to provide a comprehensive review of the current state and future direction of theory and practice in US public administration Chapters offer a cross disciplinary holistic review of the field pulling together leaders from subfields such as public administration public and nonprofit management finance human resource management networks nonprofits policy and politics Chapter authors conclude that the field is intellectually rich and highly nuanced but also identify numerous opportunities for growth and expansion in the coming years The Handbook charts an agenda for future research in the field The Handbook of American Public Administration is geared toward academics researchers and advanced graduate students As an authoritative text on the history and state of US public administration it proves equally suitable for national and international audiences Practitioners who may be looking for background information or state of the art knowledge about practice will also benefit from this Handbook Contributors include G Arnold G A Brewer B J Cook R S Davis L DeHart Davis M D Farnworth P S Federman S Fernandez H G Frederickson H Getha Taylor R K Ghore D Hatmaker K Hendren C J Hill N Humphrey K R Isett S Jo J E Kellough S Y Kim Y Kim L Langbein M Leighninger L E Lynn Jr D S T Matkin B Merriman C C Merritt A V Moldavanova T Nabatchi S Nicholson Crotty R O Leary Z W Oberfield A Osorio S K Pandey Y J Park S Portillo B A Radin W G Resh R L St Clair J R Sandfort L M Shimek A E Smith S R Smith E C Stazyk S Webeck E S Zeemering H L Zook
