Rising Concentration in Asia-Latin American Value Chains Osvaldo Rosales, Keiji Inoue, Nanno Mulder, 2015

Dynamic Asia has overtaken the European Union as Latin America and the Caribbean's second largest export market after the United States. However, the region's exports to Asia remain concentrated in few commodities involving a small number of large firms. This book explores the present and future scope for the participation of small and medium-sized enterprises (SMEs) in bi-regional trade and value chains and the measures that can be taken to make those chains more inclusive and sustainable. It encourages governments in Latin America to improve the business environment in order to encourage multinational firms to invest, upgrade and innovate in the region.
