Vycinas,2012-12-06 In the unequaled and majestic contemporary technological phase of our cultural development where democratic liberties and the means of well being are accessible to everyone man is unsatisfied insecure rebellious confused and lost More than ever before he seems to lack the sureness of his way in life The abundance of theories doctrines and various philosophical social or religious systems and moral teachings fails to provide the individual today with any clarity whatsoever Lacking this he turns to peripheral events to sensational occurrences he turns his attention to more and to glaring new models of technological products more new things mostly Acquiring a great multitude of these and various other things he seems to stress his own importance thus making an inquiry in its fundamental validity superfluous In this way he escapes the search of his very own mission he betrays the superior powers which demand from him his existential contribution in finding his ideals and outlining the way of his life
