**Material Culture** Andreas Tacke, Birgit Ulrike Münch, Wolfgang Augustyn, 2018 The material turn has led to stimulating new questions new research areas and new research perspectives in numerous humanities and social science disciplines The often quoted thinking through things is essential especially in the area of the history of collections and museums Nevertheless it is astounding that numerous research themes have hardly been worked on despite the immanent connection of objects to the discipline of art history although such research themes form a major area of the pre modern self conception of the artist Speaking of those objects of material culture representing the civic associations in crafts and business to make visible the system of guilds and brotherhoods in a townscape All those objects making up this area of study play the major role here The term material culture of the guild and crafts system is to be understood in its broadest possible dimensions from multi panel altar to the simple guild cabinet storing the candles for the civic processions Of interest are the form effect and function of these objects in their sacred and profane surroundings Back cover **Afterlives** Open University A151/Book 3, 2012 *"Material Cultures, 1740-1920"* Alla Myzelev, 2017-07-05 Interweaving notions of identity and subjectivity spatial contexts materiality and meaning this collection makes a significant contribution to debates around the status and interpretation of visual and material culture Material Cultures 1740 1920 has four primary theoretical and historiographic lines of inquiry The first is how concepts of otherness and difference inform imbricate and impose themselves on identity and the modes of acquisition as well as the objects themselves The second concern explores the intricacies of how objects and their subjects negotiate and represent spatial narratives The third thread attempts to unravel the ideological underpinnings of collections of individuals which inevitably and invariably rub up against the social the institutional and the political Finally at the heart of Material Cultures 1740 1920 is an intervention moving beyond the disciplinary ethos of material culture to argue more firmly for the aesthetic visual and semiotic potency inseparable from any understanding of material objects integral to the lives of their collecting subjects The collection argues that objects are semiotic conduits or signs of meanings pleasures and desires that are deeply subjective more often than not they reveal racial gendered and sexual identities As the volume demonstrates through its various case studies material and visual cultures are not as separate as our current disciplinary ethos would lead us to believe Material Culture and Mass Consumerism Daniel Miller, 1997-12-08 Exploring materialism and social relationships in modern culture Material Culture and Mass Consumption offers an in depth exploration of objects objectification ideology and materialism in modern society Drawing from Hegel Marx Munn and Simmel the discussion delves into the physicality of the material world and attempts to understand materialism as a form of cultural expression Targeting mass production as the root of mass consumption rather than the result this book positions

material goods at odds with genuine social interaction and questions these relationships from the abstract to the intensely specific
