The Vanguard Manual Ru:

The Manual of Dates George Henry Townsend,1877 **The Russian Way of War** Richard W. Harrison,2001 In this first comprehensive treatment of the subject Richard Harrison shows how this theory emerged and developed to become despite radically different political settings and levels of technology essential to the Red Army s victory over Germany in World War II **The Russian Revolution** Richard Pipes,2011-07-13 A groundbreaking inclusive history of the Russian Revolution for those who want to discover what really happened to Russia The New York Times Book Review A monumental study Wall Street Journal enthralling in its narrative of a movement whose purpose in the words of Leon Trotsky was to overthrow the world The Russian Revolution draws conclusions that have aroused great controversy Richard Pipes argues convincingly that the Russian Revolution was an intellectual rather than a class uprising that it was steeped in terror from its very outset and that it was not a revolution at all but a coup d etat the capture of governmental power by a small minority

Russian Anarchists Paul Avrich,2015-03-08 Professor Avrich records the history of the anarchist movement from its Russian origins in the 19th century with a full discussion of Bakunin and Kropotkin to its upsurge in the 1905 and 1917 Social Democratic Revolutions and its decline and fall after the Bolshevik Revolution While analyzing the role of the anarchists in these fateful years he traces the close relationships between the anarchists and the Bolsheviks and shows that the Revolutions were conceived in spontaneity and idealism and ended in cynical repression The Russian anarchists saw clearly the consequences of a Marxist dictatorship of the proletariat and though they had no single cohesive organization repeatedly warned that the Bolsheviks aimed to replace the tyranny of the tsars with a tyranny of commissars Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Technical Manual* United States. War Department,1967 The Reading of Russian Literature in China M. Gamsa,2010-05-24 This book traces the profound influence that Russian literature which was tied inseparably to the political victory of the Russian revolution had on China during a period that saw the collapse of imperial rule and the rise of the Communist Party **The New Russian Empire** Andrew Efron,1941

Koreans in Transnational Diasporas of the Russian Far East and Manchuria, 1895-1920 Hye Ok Park,2021-09-19 Much attention has been paid to the Japanese deployment of Koreans in their war efforts during WWII Much less attention however has been given to the subject prior to 1910 This book will 1 present the evidence which reveals the presence of Koreans in the Japanese military during the Russo Japanese War 1904 1905 as seen by an American novelist Jack London before the formal annexation of Korea by Japan 2 analyze the presence of Koreans on the Japanese and the Russian sides of

the war and 3 investigate why and how these Koreans became involved in someone else's war Arirang a Korean folksong favored and sung by Koreans at home and in exile has sustained the Korean people in a shared collective spirit throughout their lives in transnational diasporas in the Russian Far East Manchuria and Japan as well as in Korea This is a study of transnational Koreans as the Arirang people Chapter 1 Introduction Chapter 2 Koreans in the Russian Far East and Manchuria Chapter 3 Koreans in the Russo Japanese War 1904 1905 Chapter 4 Korean Transnationals as Stateless People 1906 1920 and the Conclusion

The Future of Terrorism Walter Laqueur, Christopher Wall, 2018-07-03 Since the death of bin Laden in 2011 ISIS has risen al Qaeda has expanded its reach and right wing extremists have surged in the United States for the same simple reason terrorism works It's not caused by psychosis or irrationality as the media often suggests Instead it is terrifyingly logical Violent acts produce political results This has been an uncomfortable truth throughout human history from the assassination of Tsar Alexander II through the terror campaigns by Irish and Indian nationalists and on to the Nazis and Italian Fascists Battling terrorism today require confronting the truth Walter Laqueur and Christopher Wall do so in this crucial timely book To explain why terror is on the rise again the authors show how the American invasion of Iraq created the conditions for the emergence of al Qaeda there part of which metastasized into ISIS while Russia's increasing intervention in Syria allowed both of those organizations to evolve And within the United States the violence of the alt right has emboldened its supporters The Future of Terrorism brings reason to a topic usually ruled by fear Laqueur and Wall show the structural features behind contemporary terrorism how bad governance abets terror the link between poverty and terrorism why religious terrorism is more dangerous than secular and the nature of supposed lone wolf terrorists Fear alone provides no tools to combat the future of terrorism This book does Dust jacket flap

Russia's Communists At The Crossroads Joan Urban, 2021-08-12 This book is about the evolution of the communist movement in the Russian Federation from the last years of the U S S R's existence through Russia's presidential elections of June/July 1996 when the chief contenders were the incumbent president Boris N Yeltsin and his communist challenger Gennadii A Ziuganov Our main protagonist is the Communist Party of the Russian Federation or CPRF as it is commonly called But the CPRF was a latecomer to the post Soviet communist playing field Its formal establishment came only in February 1993 well after the formation of a number of more doctrinaire communist parties which initially competed with the CPRF and influenced its political profile and conduct in numerous if not always readily apparent ways All of these new Russian CPs emerged from the rubble of what had been the mighty and supposedly monolithic Communist Party of the Soviet Union CPSU On the Marxist Leninist political spectrum however the range of the official positions espoused by these post Soviet neocommunist groups was more comparable to that of the international communist movement as a whole in the post Stalin era than to the CPSU under Nikita S Khrushchev and Leonid I Brezhnev
